

**Mackenzie Valley**  
Environmental Impact Review Board

2002 - 2003 Annual Report

## Mission

The MVEIRB is responsible for ensuring that all residents of the Mackenzie Valley enjoy the benefits of development in a manner that protects the environment and enhances their social, economic and cultural well-being.

**M**VEIRB has experienced many changes, successes and accomplishments in the past year. Included among them are the refocusing of our attention on greater community involvement and awareness. We see the coming year as an opportunity to build on the results of our previous efforts and to make even greater strides forward.

As representatives of all stakeholder groups within the Mackenzie Valley, we accept our responsibilities and look forward to ensuring that the development of the Mackenzie Valley protects the interests of all parties involved.

The Mackenzie Valley Resource Management Act (MVRMA) came into force on December 22, 1998 and established the MVEIRB as the agency to undertake environmental assessment and review in the Mackenzie Valley.

The Board's jurisdiction applies to all lands in the Northwest Territories, excluding the Inuvialuit Settlement Region and Wood Buffalo National Park. The MVRMA replaces the Canadian Environmental Assessment Act (CEAA) in the Mackenzie Valley except under very specific circumstances.

## Message from the Chair

This past year has brought many changes at MVEIRB. A turnover in staff provided the opportunity for us to recruit new talent into our organization resulting in an even stronger team of professionals. Mr. Martin Haefela and Ms. Sherry Sian, our new Environmental Assessment Officers joined our organization and brought with them combined experiences ranging from the corporate boardroom to the community council chambers.

Commitments from the Minister of Indian and Northern Affairs Canada to provide secure core funding and to respond quickly to additional resource needs have allowed us to focus on our main business, doing quality environmental assessments. As well, the Minister committed to establishing the position of Chair as a full-time position. This is a first for the Northern boards.

At the operational level, we have implemented project-tracking techniques to assist us with planning, execution and monitoring of our projects. Adopting a lessons-learned approach after the conclusion of each assessment means that we continue to improve the efficiency and quality of our work.

In addition to the day-to-day activities associated with conducting our assessments, the Board and Staff have made considerable progress in developing guiding documents designed to assist both the parties to our processes and the environmental assessment practitioners. Such undertakings include a groundbreaking translators workshop that provided participants with a better understanding of the overall process as they developed the literal translation of the various terms used in the regulatory and environmental assessment process.

As we move forward into 2003, the workload for MVEIRB continues to increase. However, the talent in our organization combined with the commitment of necessary resources have positioned the MVEIRB to meet the new challenges head-on and provide the quality of service that the people of the North and Canada deserve.

Mr. Todd Burlingame,  
Chair, MVEIRB

## Membership

As of March 31, 2003, the members of the Board were Todd Burlingame, Chair, Yellowknife; Frank Pope, Norman Wells (Mr. Pope also acts as Alternate Chair on pipeline issues); Bertha Rabesca, Rae-Edzo; Charlie Snowshoe, Fort McPherson; Gordon Wray, Yellowknife (Mr. Wray also acts as Alternate Chair on office and administration matters); Danny Bayha, Deline; and John Stevenson, Yellowknife. The Minister of INAC appointed John Stevenson to the Board in August of 2002.

The Deh Cho Interim Agreement, which is being negotiated between the Deh Cho First Nations and the federal government, calls for further appointments from the Deh Cho to the Board.

Todd Burlingame

Frank Pope

Bertha Rabesca

Charlie Snowshoe

Gordon Wray

Danny Bayha

John Stevenson

## Staffing and Location

The MVEIRB's office is located on the second floor of the Scotia Centre in Yellowknife. The staff consists of an Executive Director, three Environmental Assessment Officers, a Finance and Administration Officer, a Traditional Knowledge Coordinator, a Communications Officer and an Administrative Assistant.

The Board hired Mr. Martin Haeefe and Ms. Sherry Sian as Environmental Assessment Officers in January to replace two departing staff members.

## Preliminary Screenings

In the period from April 1, 2002 to March 31, 2003, the Board received 157 notifications of preliminary screenings. This is down from the 220 screenings received the previous year and the 186 screenings received in fiscal year 2000-2001. Please refer to the end of this report for a summary list of this year's preliminary screenings.

## Environmental Assessments

DeBeers Canada Mining Ltd.'s Snap Lake underground diamond mine development was referred in May, 2001. The target date for completion is June 2003. As part of this environmental assessment MVEIRB held a technical session from November 25 to December 6, 2002.

WesternGeco Ltd.'s Mackenzie and Liard Rivers seismic survey was referred jointly in June 2002 by the Department of Fisheries and Oceans and the National Energy Board. The environmental assessment was put on hold pending completion of the company's test program. It was reinstated in December, 2002 at the request of the company.

The Sahtu Land and Water Board referred the Northrock Resources Ltd. Summit Creek exploratory oil and gas well to environmental assessment in March, 2003. This is the first referral out of the Sahtu region for the MVEIRB.

## Other Environmental Assessments

Canadian Zinc Corporation's decline and metallurgical plant was referred April, 2001 and completed January, 2002. The environmental assessment report was returned to MVEIRB by the Minister of Indian and Northern Affairs Canada for reconsideration in September, 2002. The Board submitted its reconsideration to the Minister on April 4, 2003.

The Northern Rivers Survey Ltd. aquatic seismic survey of the Liard and South Nahanni Rivers was put on hold at the request of the company in October, 2002 pending the completion of a test survey by the company. NRSL has the option of reactivating the environmental assessment once this test survey is completed.

The Mackenzie Valley Land and Water Board (MVLWB) referred the water license renewal for North American Tungsten's CanTung mine to environmental assessment. However, the company appealed this decision through the courts and this decision to refer was reversed.

## MVEIRB Activities

MVEIRB members participated in 10 board meetings and 12 teleconferences during the fiscal year. The meetings were held to discuss the full schedule of environmental assessments that the MVEIRB had to deal with in its third full year of operation. MVEIRB held a regularly scheduled meeting in May in Port Hardy, British Columbia in conjunction with a site visit to the Island Copper Mine to view abandonment and restoration efforts by BHP Billiton Ltd. at its open pit site. MVEIRB held its June meeting in Norman Wells and held a community open house in conjunction with the meeting.

### Strategic Planning

MVEIRB continued its strategic planning exercise initiated the previous fiscal year. MVEIRB set out its three-year strategic plan during a workshop held in December, 2002 and developed an expenditure and work plan which was geared to anticipated activity surrounding the application for a Mackenzie Valley pipeline in the 2003-2004 budget year.

## MVEIRB Budget

This year's budget allocation from INAC was \$2.9 million, which allowed MVEIRB to initiate several projects outlined in its strategic plan. This marks an increase from previous years so that MVEIRB could prepare for the anticipated filing of permits for the Mackenzie Valley natural gas pipeline.

The Chair met with the Gwich'in Claims Implementation Committee in Inuvik in August, 2002 to discuss MVEIRB's budget and the ten-year review of claims implementation.

INAC provided supplementary funding to all northern boards for participation in the ongoing work of the Northern Pipeline Environmental Impact Assessment and Regulatory Chairs' Committee. This allowed the MVEIRB to work on this important issue without impacting greatly on its core budget.

## Environmental Assessment Guidelines

MVEIRB held several meetings with its stakeholders on the revisions to Guidelines for Environmental Impact Assessment in the Mackenzie Valley. A final version will be released in the 2003-2004 fiscal year.

MVEIRB initiated work on developing an information bulletin on environmental assessment of seismic operations in the Mackenzie Valley.

MVEIRB continued work on its discussion paper on Socio-Economic Impact Assessment. This discussion paper started the process for developing guidelines on how MVEIRB will deal with this part of its mandate. Developing these socio-economic guidelines will be a public process involving different stakeholders.

MVEIRB has a seat on the Cumulative Environmental Assessment Monitoring Framework (CEAMF) comprised of various government departments and aboriginal organizations. This group has been developing the framework for defining cumulative assessment in the Northwest Territories.

The various documents referenced here are available on MVEIRB's website at [www.mveirb.nt.ca](http://www.mveirb.nt.ca).

## Northern Pipeline Environmental Impact Assessment and Regulatory Chairs' Committee

A meeting initiated by the MVEIRB in December, 2000 brought together, for the first time, the Chairs of the Mackenzie Valley boards, the Inuvialuit settlement area boards, the National Energy Board, the CEAA, the GNWT and INAC to begin work on coordinating the various regulatory and environmental assessment legislation in preparation for an application to build a Mackenzie Valley natural gas pipeline. During the last fiscal year, the parties developed the Cooperation Plan that outlines how these different bodies will work together. This fiscal year saw the parties completing work on many of the initiatives outlined in the Cooperation Plan.

In September, 2002 MVEIRB, the Environmental Impact Review Board for the Inuvialuit Settlement Region and CEAA released their draft agreement for participation on a joint review panel.

MVEIRB member Mr. Frank Pope of Norman Wells is the Chair of the Northern Pipeline Environmental Impact Assessment and Regulatory Chairs' Committee.

## Other Activities of Interest

### Transboundary Cooperation Agreements

MVEIRB staff discussed cooperation agreements with other regulatory agencies and boards which operate adjacent to the Mackenzie Valley. These agreements set out how the respective agencies will cooperate with each other in dealing with transboundary environmental assessments. This is separate and different from the Cooperation Plan for a proposed Mackenzie Valley natural gas pipeline noted above. MVEIRB has discussed these cooperation agreements with the Nunavut Impact Review Board and the Environmental Impact Review Board for the Inuvialuit Settlement Region.

### Traditional Knowledge

MVEIRB co-sponsored a traditional knowledge workshop in November, 2002 with INAC and MVLWB. The focus of the workshop was to bring elders together to provide some advice and direction to the boards on how traditional knowledge should be handled in the environmental assessment process.

The boards organized a three-day translator's workshop in March, 2003 to develop terms and phrases in the Mackenzie Valley aboriginal languages for words frequently used in environmental impact assessment. MVEIRB plans to continue this initiative in 2003-04.

## Public Information

Members and staff attended or made presentations at the following venues over the year:

- GNWT, MACA School of Local Government, Yellowknife
- North Slave Region Program Partners Forum, Yellowknife
- Oil and Gas Symposium, Inuvik
- Gwich'in Claims Implementation meeting, Inuvik
- Geoscience Forum, Yellowknife
- Cordillera Mining Conference, Vancouver
- Tour of Sahtu communities: Tulita, Norman Wells, Fort Good Hope and Colville Lake
- Prospectors and Mining Developers' Conference, Toronto
- Tour of Gwich'in communities: Inuvik, Fort McPherson, Aklavik and Tsiigehtchic
- Arctic Gas Symposium, Calgary
- Cumulative Impacts Monitoring Program workshop, Yellowknife
- Cumulative Environmental Assessment Management Framework (CEAMF) workshop, Yellowknife
- National Energy Board, Calgary

## The Next Twelve Months

MVEIRB will be conducting environmental assessments as projects are referred by the preliminary screeners. Since the referral decisions are made by other agencies, it is difficult to predict how many environmental assessments may come before MVEIRB over the next twelve months.

The information available to MVEIRB at time of application indicates that the Mackenzie Delta Producers Group will not be submitting their application for a Mackenzie Valley pipeline until late in 2003.

Work is continuing on developing a discussion paper which will guide how MVEIRB incorporates section 115 (b) of the MVRMA into its environmental assessment work. This section gives the mandate to MVEIRB for looking at socio-economic issues.

## **Auditors' Report**

To the Board of Directors of Mackenzie Valley Environmental Impact Review Board

We have audited the balance sheet of Mackenzie Valley Environmental Impact Review Board as at March 31, 2003, the statement of operating fund operations and the statement of changes in property and equipment fund for the year then ended. These financial statements are the responsibility of the organization's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Board as at March 31, 2003 and the results of its operations for the year then ended in accordance with Canadian generally accepted accounting principles.

Yellowknife, Northwest Territories

## Notes to Financial Statements

March 31, 2003

---

### 1. Organization and Jurisdiction

The Mackenzie Valley Environmental Impact Review Board (MVEIRB) is established under the Mackenzie Valley Resource Management Act with a mandate to perform environmental assessments in the Mackenzie Valley of the Northwest Territories. MVEIRB is dependant upon funding in the form of contributions from Indian and Northern Affairs Canada. Management is of the opinion that if the funding was reduced or altered operations would be significantly affected.

MVEIRB is exempt from income tax under section 149(1) of the Income Tax Act.

### 2. Accounting Policies

The following is a summary of the significant accounting policies used by management in the preparation of these financial statements.

#### (a) Fund accounting

The Board uses fund accounting to segregate transactions between its operating fund and property and equipment fund.

#### (b) Property and equipment

Purchased property and equipment are recorded in the property and equipment fund at cost. Amortization is recorded in the property and equipment fund using the declining balance method, except for leasehold improvements which use the straight line method, at the annual rates set out in Note 7.

#### (c) Financial instruments

All significant financial assets, financial liabilities and equity instruments of the Board are either recognized or disclosed in the financial statements together with available information for a reasonable assessment of future cash flows, interest rate risk and credit risk.

#### (d) Recognition of contributions

The Board follows the deferral method of accounting for contributions. Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and its collection is reasonably assured. Restricted contributions are recognized as revenue in the year in which the related expenses are incurred.

#### (e) Use of estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the updated amounts of revenues and expenses during the period. Actual results could differ from those estimates.

### 3. Budgeted Revenue

The Board receives funding from Indian and Northern Affairs Canada for their core activities as well as for various other projects. The allocation of current year revenue is as follows:

	2003
Core funding	\$ 2,232,700
Mackenzie Valley Pipeline Preparedness	700,000
Oil and Gas Capacity	88,000
<b>Total funding received</b>	<b>\$ 3,020,700</b>

**4. Interfund Transfers**

Amounts of \$138,308 (2002 \$17,715) were transferred from the Operating Fund to the Property and Equipment Fund for the acquisition of assets.

**5. Deferred Contributions**

	2003	2002
Opening balance	\$ 29,734	\$ 103,707
Deferred contribution	322,225	-
Drawdown	-	(73,973)
<b>Ending balance</b>	<b>\$ 351,959</b>	<b>\$ 29,734</b>

The commitments of MVEIRB under the funding agreement have been met; any remaining balance will be applied towards the planning and carrying out of duties and responsibilities assigned to MVEIRB under the Gwich'in Comprehensive Land Claim Agreements, Implementation Plan, and related Act(s) of Parliament.

**6. Accounts Receivable**

	2003	2002
Goods and Services Tax	\$ 59,871	\$ 61,685
Indian and Northern Affairs Canada	-	388,363
Other	163,089	-
	<b>\$ 222,960</b>	<b>\$ 450,048</b>

**7. Property and Equipment**

			2003	2002
	Rate	Cost	Accumulated Amortization	Net Book Value
Computer equipment	30%	\$ 152,411	\$ 80,789	\$ 71,622
Furniture and fixtures	20%	102,072	55,930	46,142
Leasehold improvements	20%	92,475	29,011	63,464
		<b>\$ 346,958</b>	<b>\$ 165,730</b>	<b>\$ 181,228</b>
				<b>\$ 79,319</b>

**8. Financing agreements**

	2003	2002
Dell Financial Services Canada, repayable in monthly instalments of \$320 including interest at 28% due April 2007. Property with a net book value of \$7,301 has been provided as collateral.	\$ 8,590	\$ -
Dell Financial Services Canada, repayable in monthly instalments of \$363 including interest at 28% due February 2007. Property with a net book value of \$8,259 has been provided as collateral.	9,615	-
	18,205	-
<b>Less current portion</b>	<b>2,584</b>	<b>-</b>
	<b>\$ 15,621</b>	<b>\$ -</b>

Estimate aggregate repayments of financing agreements are as follows:

2004	\$ 2,584
2005	3,673
2006	5,050
2007	6,586
2008	312
	<hr/>
	\$ 18,205

#### 9. Statement of Cash Flows

A Statement of Cash Flows has not been prepared as, in the opinion of management, it would not provide additional meaningful information.

#### 10. Commitments

The Board has entered into a lease agreement for its premises. The office lease expires in September, 2005 with minimum lease payments of \$74,596 per annum and estimated operating costs of \$58,141 per annum. The Board has entered into a lease agreement for office equipment. The office equipment lease is for \$1,245 quarterly and expires in October, 2005.

#### 11. Budget

The budget presented is unaudited, and are those approved by MVEIRB's board. Budget figures do not include revenues and expenses of special projects funded by Indian and Northern Affairs Canada.

#### 12. Comparative Figures

Certain of the prior year figures have been reclassified to conform with the current year's presentation.

#### 13. Contingency

Most of the funding from Indian and Northern Affairs Canada consists of flexible transfer funding. Upon further review of the financial information by Indian and Northern Affairs Canada, a repayment of unspent funds may be requested. A possible repayment of funds is unknown and cannot be estimated at this time. If a repayment is requested, the adjustment will be made in the year that the request is made.

## Preliminary Screenings

**02-224** – GNWT, RWED (Deh Cho Region) notice of preliminary screening application from Naha Deh Cultural Tours Ltd. for a tourism outfitters license received April 15, 2002.

**02-225** – GNWT, MACA notice of land use permit application from GNWT, DOT for highway reconstruction on the Ingraham Trail received April 15, 2002. Same preliminary screening package received May 6, 2002.

**02-226** – MVLWB notice of preliminary screening of a land use application from GNWT, DOT for a quarry operation on Hwy #3, Km 43.5 received March 26, 2002. MV2002Q0007. Issuance letter for a Type A land use permit received May 16, 2002.

**02-227** – MVLWB notice of preliminary screening of a water license application from INAC Contaminated Sites Office – Yellowknife for Colomac Mine: pilot testing water treatment options received April 29, 2002.

**02-228** – GNWT, RWED (Fort Smith) notice of preliminary screening for South Slave Outfitters (Selwyn Lake Lodge, Lynx Lake Tundra Lodge, South Slave Adventures) for an annual renewal of their tourism outfitter's license. Received April 23, 2002.

**02-229** – MVLWB notice of preliminary screening of a land use application from INAC Contaminated Sites Office Yellowknife for a water treatment plant at Colomac Mine. MV2002X0014. Notice of issuance of a Type A land use permit and conditions received May 31, 2002. Notice of issuance of a Type B water license with scope and definitions received June 18, 2002.

**02-230** – NEB notice of preliminary screening for an application from WesternGeco for a geophysical operation authorization to conduct a 2D seismic acquisition program on the Mackenzie River. Received May 2, 2002. NEB 9180-W730-2.

**02-231** – MVLWB notice of preliminary screening for a land use application from Standard Mining Corp. for mineral exploration at Damoti Lake received May 2, 2002. MV2002C0015. Notice of issuance of Type A land use permit and conditions received June 18, 2002. Second notice received June 24, 2002.

**02-232** – GNWT, MACA (Inuvik Region) notice of preliminary screening for a land use application from GDC Civil Construction Ltd. for temporary storage on unsurveyed land received May 3, 2002. MACA 402-0-LUP. Second duplicate notice received May 10, 2002.

**02-233** – MVLWB notice of preliminary screening for a land use permit application from GNWT, PWS for a quarry operation, Km 2.0 Kakisa Access Road. MV2002Q0016. Notice of issuance of a Type A land use permit with conditions received June 18, 2002. Second notice received June 24, 2002. Notice of land use permit amendment application received

September 9, 2002. Notice of approval of amendment to land use permit and conditions received October 4, 2002. Second notice received Oct. 9, 2002.

**02-234** – GNWT, MACA (Inuvik Region) notice of preliminary screening for a land use application from E. Firth Contracting to purchase lot 15, Block 18, Plan 982 and construct convenience store/gas bar. 402-18-15.

**02-235** – GNWT, RWED (Deh Cho Region) notice of preliminary screening for an application for a tourism outfitter's license from J.B. Outfitting for the South Nahanni River. Received May 16, 2002. DC2002/002.

**02-236** – MVLWB notice of preliminary screening for a land use application from Alberta Star Development Corporation for mineral exploration at Longtom Lake. MV2002C0008. Notice received June 28, 2002 of issuance of Type A land use permit and conditions. Second notice of issuance of permit received July 2, 2002.

**02-237** – MVLWB notice of preliminary screening for a land use application from W.R. McBryan to harvest wild hay: Hwy #1, Km's 3,3.8, 4, 16, 21, 23, received May 16, 2002. MV2002X0013. Notice of issuance of Type B land use permit and conditions received July 5, 2002. Second notice received July 11, 2002. Third notice received July 22, 2002.

**02-238** – MVLWB notice of preliminary screening for a land use application from Tyhee Development Corporation for mineral exploration at Giauque Lake received May 16, 2002. MV2002C0011. Notice of issuance of Type A land use permit and conditions received June 18, 2002. Second notice received June 24, 2002.

**02-239** – MVLWB notice of preliminary screening for a land use application from Tyhee Development Corporation for mineral exploration at Nicholas Lake received May 16, 2002. MV2002C0010. Notice of issuance of Type B land use permit and conditions received June 18, 2002. Second notice received June 24, 2002.

**02-240** – MVLWB notice of preliminary screening for a land use application from SouthernEra Resources Ltd. for mineral exploration at Munn and Misty Lakes received May 21, 2002. Notice of issuance letter for a Type A land use permit received May 16, 2002.

**02-241** – MVLWB notice of preliminary screening for a land use application from Trappers Trucking Ltd. for a quarry operation at Foxhole South Pit, Salt Mountain, NT. MV2002Q0018. Notice received June 27, 2002 of issuance of Type A land use permit and conditions. Second notice of issuance of Type A land use permit received July 2, 2002.

**02-242** – MVLWB notice of preliminary screening for a land use application from BP Canada Energy Company for gas plant decommissioning at Pointed Mountain, Fort Liard. MV2002X0017. Notice received June 27, 2002 of issuance of Type A land use permit and conditions.

**02-243** – GWLWB notice of preliminary screening for a land use application from GDC Civil Construction Ltd. to quarry a site for an RV campground in Gwich'in Territorial Park. GW G02Q006.

**02-244** – GWLWB notice of preliminary screening for a land use application from Arctic Tire Ltd. to build a camp to support highway widening activities: HWY #8 received May 29, 2002. GW G02J007.

**02-245** – MVLWB notice of preliminary screening for a land use application from Ashton Mining (NWT) Ltd. for mineral exploration in the Thonokied Lake area received May 29, 2002. MV2002C0020. Notice received June 28, 2002 of issuance of Type A land use permit and conditions. This license replaces existing land use permit N1999C0093. Second notice of issuance of Type A land use permit received July 2, 2002.

**02-246** – MVLWB notice of preliminary for a land use application from Ashton Mining (NWT) Ltd. for mineral exploration in the Reindeer Lake area received May 29, 2002. MV2002C0019.

**02-247** – Parks Canada notice of preliminary screening for renewal of aircraft charter licenses in Nahanni Park Reserve received May 30, 2002. NNPR-02-001.

**02-248** – MVLWB notice of preliminary screening for a land use application from Diamondex Resources Ltd. for mineral exploration on Bear Head Property near Snap Lake. Notice received May 30, 2002. MV2002C0021. Notice of issuance of Type A land use permit and conditions received August 9, 2002. Second notice received August 12, 2002.

**02-249** – MVLWB notice of preliminary screening for a land use application from NorthwTel Inc. to install a microwave tower, HWY #4, Km 28, received June 11, 2002. MV2002L0024. Notice of issuance of Type A land use permit and conditions received July 24, 2002.

**02-250** – MVLWB notice of preliminary screening for a land use application from GNWT/Aurora College (Ft. Smith) for quarrying near Foxhole and Grand Detour road. Received June 11, 2002. MV2002Q0025. Notice of issuance of Type A land use permit and conditions received July 24, 2002.

**02-251** – GNWT, RWED (Deh Cho Region) notice of preliminary screening for a tourism outfitter's license for Gary Yendo of Wrigley's Wonders. Received June 11, 2002.

**02-252** – MVLWB notice of preliminary screening for a land use application from Raymond Tourangeau for a woods operation at Thebacha Woodlot #1 received June 18, 2002. MV2002W0029. Notice

of issuance of Type A land use permit and conditions to R. Tourangeau received August 13 and 19, 2002.

**02-253** – MVLWB notice of preliminary screening for a land use permit from Diamondex Resources Ltd. for mineral exploration north east of Snap Lake, NT received June 20, 2002. MV2002C0028. Notice of issuance of Type A land use permit and conditions received August 9, 2002. Second notice received August 12, 2002.

**02-254** – MVLWB notice of preliminary screening for a land use permit from Diamondex Resources Ltd. for mineral exploration on the Ajax property, NE of Ekati Diamond Mine. Received June 20, 2002. MV2002C0027. Notice of issuance of Type A land use permit and conditions received August 9, 2002. Second notice received August 12, 2002.

**02-255** – GNWT, MACA notice of preliminary screening for a land use permit from Digaa Enterprises Ltd. for a convenience store/gas bar in Ft. Providence. SS02-LUP-001.

**02-256** – MVLWB notice of preliminary screening for a land use permit from Carter Industries Ltd. to quarry on HWY #5, Mile 21 received June 26, 2002. MV2002Q0023. Notice of issuance of Type A land use permit received July 30, 2002.

**02-257** – MVLWB notice of preliminary screening for a land use permit from ALLYN Resources Inc. for mineral exploration south of Fort Providence, NT. Received June 26, 2002. MV2002C0026. Notice of issuance of Type B land use permit and conditions received July 24, 2002. Second notice of issuance of license received July 26, 2002.

**02-258** – GWLWB notice of preliminary screening for a land use permit application from Bob's Welding & Heavy Equipment Repairs to excavate and haul shale from pit near Km 230.2, Dempster Highway received July 11, 2002. G02Q008.

**02-259** – MVLWB notice of preliminary screening for a land use permit application from Nishi Khon Freeway Inc. to quarry at the Mosquito Creek Pit received July 2, 2002. MV2002Q0032. Correction notice re location of quarry received July 3, 2002. Notice of issuance of Type A land use permit received August 20 and 23, 2002.

**02-260** – MVLWB notice of preliminary screening for a land use permit application from Nishi Khon Freeway Inc. to quarry at the Russell Channel pit (62, 15 N) received July 2, 2002. MV2002Q0033. Correction notice re location of quarry received July 3, 2002. Notice of issuance of Type A land use permit received August 20 and 23, 2002.

**02-261** – MVLWB notice of preliminary screening for a land use application from Tibbit to Contwoyto Winter Road joint venture for a camp and various quarry locations along the Lupin Winter Road. MV2002X0031. Received detailed maps of quarry locations along the Lupin Winter Road July 5, 2002.

**02-262** – Nahanni National Park Reserve notice of preliminary screening for a park business license from Alpine Aviation (aircraft charter company in Whitehorse) received July 11, 2002. NNPR-02-002.

**02-263** – MVLWB notice of preliminary screening for a land use application from Stan Dean & Sons Ltd. to quarry on HWY #5, Mile 12 received July 12, 2002. MV2002Q0037. Notice of issuance of Type A land use permit received August 19 and 22, 2002.

**02-264** – MVLWB notice of preliminary screening for a land use application from Slave Lake Diamond Corporation for mineral exploration, Snake Lake, received July 16, 2002. MV2002C0034. Notice of issuance of Type A land use permit and conditions received September 10, 2002. Notice of change of wording for Condition #24 of land use permit # MV2002C0034 received September 11, 2002. Notice of issuance of Type A land use permit received September 16, 2002.

**02-265** – MVLWB notice of preliminary screening for a land use application from the Charter Community of Wha Ti for road construction and maintenance, Wha Ti to La Marte Falls, received July 18, 2002. MV2002F0035. Notice of issuance of Type A land use permit and conditions received September 17, 2002.

**02-265** – GNWT, MACA Notice of preliminary screening for a land use application from Miramar Giant Mine Ltd for exploration diamond drilling north of the Giant Mine surface lease. Received July 22, 2002.

**02-266** – MVLWB notice of preliminary screening and notice of issuance of Type B water license to BHP Billiton for road watering in the Lac de Gras area, received July 24, 2002. MV2002L2-002. Notice received August 8, 2002 to disregard issuance and conditions received on July 24, 2002 due to clerical errors.

**02-267** – MVLWB notice of preliminary screening for a land use permit application from Enbridge Pipeline (NVV) Inc. for pipeline maintenance, Blackwater River. MV2002P0009. Notice received August 12, 2002 of extension to comment period: August 16, 2002. Notice of issuance of Type A land use permit and conditions received Oct. 4, 2002. Second notice received Oct. 9, 2002.

**02-268** – MVLWB notice of preliminary screening for land use permit and water license applications from Paramount Resources Ltd. for their existing oil and gas drilling project in Ft. Liard. Received July 30, 2002. (Current applications, land use permit #N1999A0075, and water license #N3L1-1753, expire in October 2002.) MV2002L1-0004 and MV2002A0038. Notice of issuance of Type B water license and procedures received Oct. 4, 2002. Second notice for both received October 9, 2002.

**02-269** – SLWB notice of preliminary screening for a land use application from Northrock Resources Ltd. for a staging area at the Keele River, Tulita, received July 30, 2002. S02T-002. Second copy of same screening received September 5, 2002.

**02-270** – MVLWB notice of preliminary screening for a water license application from BHP Billiton for the Misery Site Water Surplus Atomization Project. MV2002L2-0003.

**02-271** – MVLWB notice of preliminary screening for a land use application from BHP Billiton Diamonds Inc. for mineral exploration at Ekati Claim Block received August 13, 2002. MV2002C0040. Notice of issuance of Type A land use permit and conditions received October 15, 2002. Second notice received October 21, 2002.

**02-272** – GNWT, MACA notice of preliminary screening for a land use application from Miramar Giant Mine Ltd. for exploration drilling adjacent to the Giant Mine surface lease received August 13, 2002. 105-LUP-002.

**02-273** – MVLWB notice of preliminary screening for a land use application from JMR Log Homes to clear existing road – Km 2 of Jean Marie River Access Road. MV2002W0039. Notice of issuance of Type A land use permit and conditions received September 11, 2002. Duplicate notice received Sept. 17, 2002.

**02-274** – MVLWB notice of an amendment application from Yellowknives Dene First Nation for Dettah Water License #N1L4-1586 received August 26, 2002.

**02-275** – MVLWB notice of preliminary screening for a land use application from Cherdon Enterprises Ltd. to quarry at the junction of Hwy #1 and Hwy #3 received August 26, 2002. MV2002Q0043. Notice of issuance of Type A land use permit and conditions received Oct. 4, 2002. Second notice received Oct. 9, 2002. Third notice received October 15, 2002. Fourth notice received Oct. 21, 2002.

**02-276** – MVLWB notice of preliminary screening for a land use application from Cherdon Enterprises Ltd. to quarry on Hwy #1, Km 191.6 received August 26, 2002. MV2002Q0042. Notice of issuance of Type A land use permit and conditions received December 13, 2002. Second notice received December 16, 2002.

**02-277** – MVLWB notice of preliminary screening for a land use application from the GNWT, DOT for a winter road from Km 58.4 of the Rae Lakes winter road to Wekweti received September 4, 2002. MV2002F0036. Notice of issuance of Type A land use permit and conditions received Nov. 1, 2002. Second notice received Nov. 6, 2002.

**02-278** – MVLWB notice of preliminary screening for a land use application from the GNWT, DOT to conduct an environmental site assessment near the junction of HWY #1 & #7 received September 4, 2002. MV2002X0045.

**02-279** – MVLWB notice of preliminary screening for a land use application from Anadarko Canada Corporation for exploratory drilling near Ft. Liard, received September 9, 2002. MV2002A0048. Part I of the Air Quality Assessment Plan received September 10, 2002. Notice of issuance of Type A land use permit and conditions received October 15, 2002. Second notice of issuance received October 18, 2002.

**02-280** – MVLWB notice of a water license amendment application from Anadarko Canada Corporation for exploratory drilling near Ft. Liard received September 9, 2002. MV2000L1-0012. Received October 11, 2002, copy of 'Flare Management' document as per the terms and conditions of this license. Notice of issuance of Type B water license and conditions received October 15, 2002.

**02-281** – MVLWB notice of issuance of Type A land use permit to the Charter Community of What Ti for road construction and maintenance Wha Ti to La Matre Falls received September 10, 2002. Note to file: we have yet to receive the notice of preliminary screening.

**02-282** – MVLWB notice of preliminary screening for a land use application from the GNWT, PWS for a quarry operation 9 Km southeast of Nahanni Butte received September 12, 2002. MV2002Q0047. Notice of issuance of Type A land use permit and conditions received Nov. 1, 2002. Second notice received Nov. 6, 2002.

**02-283** – MVLWB notice of preliminary screening for a land use and water license application from Paramount Resources for oil and gas exploration northeast of Ft. Liard (K-36 and M-20) received September 17, 2002. MV2002A0050 and MV2002L1-0009. Notice of issuance of water and land use licenses and conditions received November 1, 2002. Second notice received Nov. 6, 2002.

**02-284** – INAC, Contaminated Sites Office notice of preliminary screening for an application from Discovery Mine for water pumping and flocculation near Giauque, Round and Winter lakes received September 17, 2002. 00-002.

**02-285** – GNWT, MACA notice of preliminary screening for an application from Tetlit Petroleum Distribution Inc. for a tank farm and fuel dispensing on Lot 3 and 3, Ft. McPherson received August 23, 2002. 402-30-2.

**02-286** – GWLWB notice of preliminary screening for a land use application from EBA Engineering Consultants Ltd. for geotechnical testing of rock for potential quarry development received April 15, 2002. G025004.

**02-287** – MVLWB notice of preliminary screening for a land and water license application from Paramount Resources Ltd. for oil and gas exploration in the Cameron Hills area received September 12, 2002. MV2002A0049 (land) and MV2002L1-0008 (water).

**02-288** – MVLWB notice of preliminary screening for a land and water license application from Paramount Resources Ltd. to drill and tie-in nine wells in the Cameron Hills area received September 11, 2002. MV2002A0046 (land) and MV2002L1-0007 (water).

**02-289** – MVLWB notice of preliminary screening for a land use application from Diamonds North Resources Ltd. for exploratory drilling in the Drybones Bay area received September 20, 2002. MV2002C0044. Also water license may be required – MV2002L2-0006.

**02-290** – SLWB notice of preliminary screening for a land use and water license application from Northrock Resources Ltd. for a winter drilling program at Summit Creek, Tulita received October 3, 2002. Land: S02A-004. Water: S02L1-003.

**02-291** – MVLWB notice of preliminary screening for a land use application from Carter Industries Ltd. for a sand quarry, Hwy #5, Km 5.4, received October 3 and October 11, 2002. MV2002Q0052. Notice received October 10, 2002 of a request to extend the review period. This period has been extended to October 25, 2002.

**02-292** – MVLWB notice of amendment to a land use permit application from 2000, Paramount Resources Ltd.: 3-D seismic program, Cameron Hills. Received October 4, 2002. MV2000B0066.

**02-293** – MVLWB notice of preliminary screening for a land use and water license application from Paramount Resources Ltd. for oil and gas exploration in the Fort Liard area. Received October 7, 2002. MV2002A0051 and MV2002L1-0010.

**02-294** – MVLWB notice of preliminary screening for a land use application from Stan Dean & Sons to quarry on Hwy #1, Mile 192 received October 9, 2002. MV2002Q0054. GNWT: Richard Power, Economic Facilitator, Thebacha Road Society Ltd., Fort Smith. Note to file that the proposed deconstruction of St. Anne Hospital in Ft. Smith is exempt from preliminary screening as per direction from Executive Director and EA01. October 9, 2002.

**02-295** – MVLWB notice of preliminary screening for a land use application from GNWT, DOT for a quarry KM 1.3 and 2.4 of the Kakisa Access Road received October 11, 2002. MV2002F0053. Second notice received October 15, 2002.

**02-296** – MVLWB notice of preliminary screening for a land use application from Les Norn Contracting to remove gravel from km 20.2 and 20.6 of Hwy #5 received October 11, 2002. MV2002Q0056.

**02-297** – MVLWB notice of preliminary screening for a land use application from Explor Data Ltd. for 2-D seismic, Nahanni Butte received October 17, 2002. MV2002B0055. Notice of issuance of Type A land use permit received December 16, 2002.

**02-298** – SLWB notice of preliminary screening for a land use and a water license application from CanNat Resources Inc. for winter drilling, Colville Lake, received October 22, 2002. S02A-005 land use permit; S02L1-004, water license number.

**02-299** – MVLWB notice of preliminary screening for a land use application from the GNWT, DOT for continued use and operation of Hwy #3, Km 200 to 338.8, received October 22, 2002. MV2002E0060.

**02-300** – MVLWB notice of preliminary screening for a land use application from the GNWT, DOT for continued use and operation of Hwy #4, Ingraham Trail, received October 22, 2002. MV2002E0061.

**02-301** – MVLWB notice of preliminary screening for three land use applications from Anadarko Canada Energy Ltd. for oil and gas exploration in the Netla area of Fort Liard. Received November 4, 2002. MV2002A0065, MV2002A0066, MV2002A0067. Notice of issuance of Type A land use permits received December 16, 2002.

**02-302** – MVLWB notice of preliminary screening for a water license application from Anadarko Canada Energy Ltd. for oil and gas exploration in the Netla area of Fort Liard. Received November 4, 2002. MV2002L1-0011.

**02-303** – MVLWB notice of preliminary screening for a water license application from Anadarko Canada Energy Ltd. for oil and gas exploration in the North Arrowhead Area, Ft. Liard received November 13, 2002. MV2002L1-0012. Notice of issuance of Type B water license received December 16, 2002.

**02-304** – MVLWB notice of preliminary screening for three land use applications from Anadarko Canada Energy Ltd. for oil and gas exploration in the North Arrowhead area, Ft. Liard received November 13, 2002. MV2002A0068, MV2002A0069, MV2002A0070. Notice of issuance of Type A land use permits received December 16, 2002.

**02-305** – MVLWB notice of issuance of Type A land use permit and conditions issued to Anadarko Canada Energy Ltd. received December 20, 2002. Second notice of issuance received December 23, 2002. Note to file: notice of preliminary screening for this application was received at same time as permit issuance. MV2002A0075.

**02-306** – MVLWB notice of issuance of Type A land use permit and conditions issued to Anadarko Canada Energy Ltd. received December 20, 2002. Second notice received December 20, 2002. Note to file: notice of preliminary screening for this application was received at same time as permit issuance. MV2002A0074.

**02-307** – MVLWB notice of issuance of Type B water license and conditions issued to Anadarko Canada Energy Ltd. received December 20, 2002. Second notice of issuance received December 23, 2002. Note to file: notice of preliminary screening for this application received at the same time as permit issuance. MV2002L1-0015.

**02-308** – MVLWB notice of issuance of Type A land use permit and conditions issued to Anadarko Canada Energy Ltd. received December 20, 2002. Second notice of issuance received December 23, 2002. Note to file: notice of preliminary screening for this application received at same time as permit issuance. MV2002A0077.

**02-309** – MVLWB notice of issuance of Type A land use permit and conditions issued to Anadarko Canada Energy Ltd. received December 20, 2002. Second notice received December 23, 2002. Note to file: notice of preliminary screening for this application received at the same time as permit issuance. MV2002A0076.

**02-310** – MVLWB notice of issuance of Type A land use permit and conditions issued to Anadarko Canada Energy Ltd. received December 20, 2002. Second notice of issuance received December 23, 2002. Note to file: notice of preliminary screening for this application received at same time as permit issuance. MV2002A0078. Corrected notice of issuance received January 7, 2003.

**02-311** – MVLWB notice of issuance of Type B water license and conditions issued to Anadarko Canada Energy Ltd. received December 20, 2002. Second notice of issuance received December 20, 2002. Note to file: notice of preliminary screening for this application received at same time as permit issuance. MV2002L1-0016.

**02-312** – MVLWB notice of issuance of Type B water license and conditions issued to Anadarko Canada Energy Ltd. received December 20, 2002. Second notice received December 23, 2002. Note to file: notice of preliminary screening for this application received at same time as permit issuance. MV2002L1-0013.

**02-313** – MVLWB notice of issuance of Type A land use permit and conditions issued to Anadarko Canada Energy Ltd. received December 20, 2002. Second notice of issuance received December 23, 2002. Note to file: notice of preliminary screening for this application received at the same time as permit issuance. MV2002A0071.

**02-314** – MVLWB notice of issuance of Type A land use permit and conditions issued to Chevron Canada Resources received December 20, 2002. Second notice of issuance received December 23, 2002. Note to file: notice of preliminary screening for this application received at same time as permit. MV2002P0072.

**02-315** – MVLWB notice of issuance of Type A land use permit and conditions issued to West End Enterprises received December 20, 2002. Second notice of issuance received December 24, 2002. Note to file: notice of preliminary screening for this application received at same time as permit issuance. MV2002P0073.

**02-316** – MVLWB notice of proposed new location for explosives storage for a land use application from Tylee Development Corporation received December 31, 2002. Note to file: did not receive notice of preliminary screening for this application. MV2002C0079 and MV2002L2-0017.

**02-317** – MVLWB notice of issuance of Type B water license and conditions to Anadarko Canada Energy Ltd. received December 20, 2002. Second notice received December 23, 2002. Note to file: notice of preliminary screening for this application received at same time as permit issuance. Additional notice of issuance received January 7, 2003. MV2002L1-0014.

**02-318** – MVLWB notice of preliminary screening for a land use application from Navigator Exploration Corporation for mineral exploration in the MacKay Lake area received December 19, 2002. MV2002C0086.

**02-319** – MVLWB notice of preliminary screening for a land use application from Diavik Diamond Mines Inc. for a camp in the Lac de Gras area received December 20, 2002. MV2002J0087.

**03-320** – MVLWB notice of preliminary screening for a water license application from GNWT, DOT for a bridge installation at Dam Creek received January 9, 2003. MV2002L3-0018.

**03-321** – SLWB notice of preliminary screening for a land use permit from Paramount Resources Ltd. to build a camp near Colville Lake received January 8, 2003. Note to file: the PS was received after the application was already approved by the SLWB on January 7, 2003. S02B-006.

**03-322** – MVLWB notice of preliminary screening for a land use permit application from De Beers Canada Exploration Ltd. for mineral exploration near Hardy Lake. Received January 9, 2003. MV2003C0001.

**03-323** – MVLWB notice of issuance of Type A land use permit to De Beers Canada Exploration Inc. for mineral exploration received January 10, 2002. Note to file: copy of preliminary screening received at same time as issuance notice. MV2002C0082.

**03-324** – MVLWB notice of preliminary screening for a land use permit application from Anadarko Canada Energy Ltd. for a geotechnical investigation, Liard River received January 13, 2003. MV2002X0088.

**02-326** – Giant Mine stream realignment at Baker Creek. Removal of old culvert and bridge foundations and abutment within Baker Creek on the Giant Mine property. Received January 21, 2003.

**02-327** – 3D seismic in Cameron Hills area. Access construction and operation of a low impact 3D seismic program in the Cameron Hills area.

**02-328** – Geophysical survey and drilling south of Contwoyto Lake for a winter/spring ground geophysical survey to test up to 10 airborne geophysical anomalies. Summer till sampling and possible drilling and camp may be required, received January 31, 2003.

**02-329** – Research on seismic lines in Fort Liard area. Several lines will be cut mimicking current common seismic practices to study the impact of seismic lines on birds. The proposed lines and undisturbed control areas will be in the vicinity of the Liard Highway and Liard River, just north of Pettitot River. Submitted November 19, 2002.

**02-330** – Miramar is applying for a renewal of their water license covering the care and maintenance of Giant Mine. It does not cover the arsenic trioxide management. No changes to the operation are planned other than the stop of ore production in 2005. The application was received February 28, 2003.

**02-332** – P-66B drilling near Fort Liard. Re-entering an existing well at P-66 near Fort Liard for directional drilling of a gas well. Access will be on existing all weather road from barge landing site and K-29 lease. There also are existing and water pipelines to K-29. Submitted February 2, 2003.

**02-333** – Mining exploration in the Lac De Gras, Thonokied, Glowworm Lake area. Kimberlite exploration involving till samples, geophysical investigations and diamond drilling. The latter may require temporary access roads. Submitted January 16, 2003.

**02-334** – Permanent bridge installation at Billy Creek, Km 1033.4 received January 29, 2003. Construction of abudments, pilings and launching of superstructure to build a permanent bridge along the Mackenzie Valley Winter Road, just north of Norman Wells.

**02-335** – Permanent bridge installation at Four Mile Creek, Km 932.2. Construction of abudments, pilings and launching a superstructure to build a permanent bridge along the Mackenzie Valley Winter Road between Wrigley and Tulita, received February 4, 2003.

**02-336** – Permanent bridge installation at Jungle Ridge Creek. Construction of abudments, pilings and launching of superstructure to build a permanent bridge along the Mackenzie Valley Winter Road, between Wrigley and Tulita received January 29, 2003.

**02-337** – Hunting and outfitting.

**02-338** – Hunting and outfitting.

**02-339** – Winter field geotechnical investigation program in support of a proposed Mackenzie Valley gas pipeline in the Deh Cho Region. The project involves examining potential sources for granular material and examination of river crossings for 62 proposed sites. Received November 19, 2002.

**02-340** – Dock construction and infilling on Great Slave Lake, Back Bay for the extension of an existing float plane dock received February 10, 2003.

**02-341** – Highway maintenance off right of way and possible realignment of the Mackenzie Valley Winter Road between Wrigley and Fort Good Hope received February 12, 2003.

**02-342** – South Nahanni Outfitters hunting and outfitting activities request for a hunting and outfitting license.

**02-343** – Land is Life request for an outfitting license for guiding and outfitting.

**02-344** – Small logging operation at Salt Mountain woodlots near Fort Smith applied for a permit to say logs and commercial firewood cutting on February 17, 2003.

**02-345** – INAC proposed removal of the Radium Gilbert from Great Bear Lake, store the pieces in Deline and remove all the material the following year. Received February 24, 2003, no authorization required but screening is because it is a government development.

**02-346** – Mineral exploration near Drybones Bay on Great Slave Lake including till sampling and diamond drilling received February 26, 2003.

**02-347** – Shoreline recontouring along Back Bay, Great Slave Lake received February 28, 2003. Same as project 03-340.

**02-348** – GNWT, DOT proposed tree clearing at the Hay River Airport to comply with safety regulations.

**02-349** – Highway #6, the Great Slave route. LUP for 1 Km area on either side of the highway for maintenance purposes. LUP allows only to use existing quarries or facilities, new quarries or facilities will require amendment. Received October 23, 2002.

**02-350** – Highway #5, the Wood Buffalo route. LUP for 1 Km area on either side of the highway for maintenance purposes. LUP allows only to use existing quarries or facilities, new quarries or facilities will require amendment. Received October 23, 2002.

**02-351** – Highway #4, Km 200 to Km 69.2. LUP for 1 Km area on either side of the highway for maintenance purposes. LUP allows only to use existing quarries or facilities, new quarries or facilities will require amendment. Received October 23, 2002.

**02-352** – Highway #3, Km 0.0 to Km 200.0. LUP for 1 Km area on either side of the highway for maintenance purposes. LUP allows only to use existing quarries or facilities, new quarries or facilities will require amendment. Received October 23, 2002.

**02-353** – Highway #1, the Waterfalls Route. LUP for 1 Km area on either side of the highway for maintenance purposes. LUP allows only to use existing quarries or facilities, new quarries or facilities will require amendment. Received October 23, 2002.

**02-355** – Drill, evaluate and suspend Monty Coty K-02 well, 7 Km south of Fort Simpson. The well is located on an existing well pad. The project includes upgrading an existing winter access for summer use and a remote sump. Potassium sulphate drill cuttings will be trucked to a facility in BC.

**02-356** – Deline dock reconstruction received March 3, 2003. The project involves removing the existing wooden structures at the community dock in Deline, the placement of sheet piling and the infilling of the dock and a short causeway with gravel.

**02-357** – Demolition of Fort Smith upper air station including destruction and demolition of a building and attached garage, removal of concrete pad, back filling of septic field and basement.

**02-358** – Mineral exploration in the Drybones Bay area, Great Slave Lake. General prospecting, geophysics, sampling and diamond drilling. Exact locations not yet determined. Submitted December 5, 2002.

**02-358** – St. Anne's Hospital in Fort Smith to be demolished and removed received August 10, 2002.

**02-359** – Mineral exploration in the Wool Bay area, 25 Km southeast of Yellowknife on Great Slave Lake, requiring 3 diamond drill holes but no camp site and no onsite fuel storage, received March 24, 2003.

**02-360** – Miramar Con Mine has applied for abandonment and restoration on March 20, 2003.

**02-361** – Pipeline geotechnical field investigations. Construction of access roads, limited clearing, drilling, examination of potential granular sources for Mackenzie Valley pipeline, frost heave study.

**03-003** – GNWT, MACA requires a land use permit within Norman Wells geotechnical field investigations in the Sahtu settlement area. There are five sites in the program, submitted for the land use permit April 15, 2003.

**03-005** – Outpost camp at Outram, Walmsely and Cook Lakes. Construction of a seasonal camp for tourism.

**03-006** – Residential unit construction in Rae for the RCMP in the community. Submitted April 1, 2003.

**03-007** – Residential unit construction in Fort Providence for the RCMP in the community and demolition of RCMP boathouse. Submitted April 1, 2003.

**03-008** – Residential unit construction in Fort Resolution for the RCMP in the community. Submitted April 1, 2003.

**03-011** – Geotechnical investigation at the Rae sewage lagoon requires 13 bore holes to investigate the feasibility of expansion, below surface investigations and drilling of up to 3 boreholes to a depth of 10 m using a truck mounted rig. Submitted June 10, 2003.

**03-013** – BHP applied for regional geological sampling and will maintain a camp and use helicopters for prospecting in an area bordered in the north by Great Slave Lake and Dubanwnt Lake and in the south by the 60th parallel, received May 5, 2003.

**03-019** – Dog sled tours in Hay River within town limits.

**03-020** – Guided tours in Hay River and aurora viewing, outdoor education, nature/ecotourism from west end of Great Slave Lake to Jones Point.

**03-021** – Ecotourism in Fort Resolution including fishing, aurora viewing, snowmobile tours in Fort Resolution area, Simpson Island and Hornby Channel.

**03-022** – Guiding in Fort Smith including crossledding tours, snowshoeing tours, outdoor education, naturalist activities, canoeing, equipment rentals and camping. Fort Smith area and other South Slave communities that may request service.

**03-023** – Boat and bombardier tours on Great Slave Lake to experience traditional fishing and northern lights.

**03-025** – Fuelwood harvest, Enterprise. Access construction to harvest 360 cubic metres of fuelwood southwest of Enterprise. Submitted June 3, 2003.

**03-027** – N'Dilo outfitter requested permit June 18, 2003 to show guests traditional harvesting methods, storytelling and interpretive tours.

**03-028** – Geotechnical investigation in Fort Simpson. Imperial Oil, through ColtKBR, proposes to study frost heave at three sites inside Norman Wells municipal boundaries in preparation for a potential Mackenzie Valley pipeline. At each site there will be surface investigations and drilling of up to 3 boreholes to a depth of 10 m using a truck mounted rig. Submitted June 10, 2003.

**03-029** – Geotechnical investigation in Norman Wells. Imperial Oil, through ColtKBR, proposes to study frost heave at three sites inside Norman Wells municipal boundaries in preparation for a potential Mackenzie Valley pipeline. At each site there will be surface investigations and drilling of up to 3 boreholes to a depth of 10 m using a truck mounted rig. Submitted June 10, 2003.

**03-032** – Imperial Oil applied for a pesticide application permit to apply various pesticides in their Norman Wells plant for vegetation control on July 2, 2003.

**03-033** – Timber cutting and mill near salt river. Harvesting of 500 cubic metres of timber with an associated mill site.

**03-036** – Canoe tours on the Thelon River, received July 8, 2003,

including guided and self guided canoe trips and gear rental on Thelon River and its tributaries.

**03-037** – Outfitting operation on Thelon, Back and Lockart River systems. Fishing and other non-hunting related outfitting operations, equipment rentals and guide services. Submitted July 8, 2003.

**03-038** – Outfitting operation on Artillery Lake. Fishing and other non-hunting related outfitting operations, equipment rentals and guide services in the Artillery lake area and Lockart and Thelon Rivers. Submitted July 8, 2003.

**03-320** – MVLWB notice of preliminary screening for a water license application from GNWT, DOT for a bridge installation at Dam Creek received January 9, 2003. MV2002L3-0018.

**03-321** – SLWB notice of preliminary screening for a land use permit from Paramount Resources Ltd. to build a camp near Colville Lake received January 8, 2003. Note to file: the PS was received after the application was already approved by the SLWB on January 7, 2003. S02B-006.

**03-322** – MVLWB notice of preliminary screening for a land use permit application from De Beers Canada Exploration Ltd. for mineral exploration near Hardy Lake. Received January 9, 2003. MV2003C0001.

**03-323** – MVLWB notice of issuance of Type A land use permit to De Beers Canada Exploration Inc. for mineral exploration received January 10, 2002. Note to file: copy of preliminary screening received at same time as issuance notice. MV2002C0082.

**03-324** – MVLWB notice of preliminary screening for a land use permit application from Anadarko Canada Energy Ltd. for a geotechnical investigation, Liard River received January 13, 2003. MV2002X0088.

## Our Logo

Our brand has been designed to accommodate the diverse aspects of our role in the Mackenzie Valley and our responsibility to the people, the land and the great waters that course through it. The drum is a strong aboriginal symbol depicting voices of the people, the voices of the board, the land, the animals and the environment. The small circles represent the 28 communities of the Mackenzie Valley ranging in size from big to small. The change in size also represents the transition of

life for people as they pass from youth to elder and for the changes in the sun as it passes through the seasons. Curved lines depict the river and the flow of life. Water separates the land and sky. The three lines are the people, the economy and the government, our three main influences. We have chosen colours to link us to the other co-management boards in the region. The yellow lines also represent the resources of our land.
