

Information Request – Paramount Cameron Hills

Date: June 13, 2001
From: Susan Huvenaars, Department of Education, Culture and Employment, Government of the Northwest Territories

Phone: (867) 873-7284
Fax: (867) 873-0155
Email: susan_huvenaars@gov.nt.ca

Subject: Employment and Training

Objective: The Department of Education, Culture and Employment is interested in determining the number and type of employment and training opportunities that will be generated as a result of the project in local communities. Quantitative data that shows the predicted direct employment impacts, it would enable the Department to better deal with planning issues.

Time Limits: Information required by July 27th, 2001 to enable our Department to complete the technical review.

Reference: Final Report – Environmental Impact Assessment for the Cameron Hills Drilling Project, submitted to MVEIRB in June 2001, section 5 Socio-Economic Effects, page 17, section 5.2 “Employment and Training”.

Preamble: Tables 5-1 and 5-2 report the number of persons, the number of days and table 5.2 reports the number of person-days. While the proponent states that it intends to maximize positive benefits of the project through their commitment to principles of fair and equal employment and training opportunities, it is unknown how many of those positions are for skilled and unskilled labour and how many people will be hired from local communities.

Request: Please provide:

- (a) Further quantitative data showing the number of skilled and unskilled workers required for the project
- (b) Forecasted number of workers from local communities.
