Sherry/Alan,

I do not want to belabor the point but probably due to the sunny long "labor" day weekend and too much time to think on my hand I am pushing for an earlier rather than later adjustment to the Public Hearing meeting.

Attached is the "Milestone" outlined in COs. Goldwin's ToR with my adjustments of time due to various missed deadlines, etal which regardless point to an earlier scheduled public meeting.

I would appreciate your comments on why I can not be accommodated.

Laurence Stephenson
