Dear Mr. Christensen,

**Re: Preliminary Screening Report
Recommend Environmental Assessment
Northrock Resources Ltd. – Amendment for Winter Airstrip**

The SAHTU Land & Water Board at its meeting on November 12th, 2004 accepted and approved the enclosed Preliminary Screening Report. The Preliminary Screening found that the development proposal might have significant public concern.

Pursuant to the Mackenzie Valley Resource Management Act (MVRMA) Section 125 the Board recommends that an Environmental Assessment of the proposed development be carried out.

I trust our comments and recommendation will receive your careful consideration.

Respectfully yours,
SAHTU Land & Water Board
