Re: Notification of the closing of the public records

Dear Parties and members of the public,

The Mackenzie Valley Environmental Impact Review Board (Review Board) has decided to close the public record for the environmental assessments of Consolidated Gold Win Ventures' (EA0506-005) and Sidon International Resources Corp's (EA0506-006) mineral exploration program at **5:00 pm on Thursday May 3rd, 2007**. This note is to provide you with the two weeks advance notice of this event, as was promised at the public hearing for these developments.

The Review Board has further decided, based on the existing evidence on the public record, that Phase I of these environmental assessments will have provided the Board with enough information to reach decisions on the key issues by the time of closing of the public records. In accordance with the workplans of these environmental assessments, the Review Board has therefore decided that the option of proceeding to Phase II is not required.

For further details on these two phases, please consult the workplans of these two environmental assessments. Should you have any questions regarding this specific matter, or with the environmental assessments in general, please contact Alan Ehrlich, Senior Environmental Assessment Officer. Alan can be reached by email at aehrich@mveirb.nt.ca, by phone at (867)-766-7056, or by fax at (867)-766-7074.

Yours truly,

A handwritten signature in black ink, appearing to read "Patrick Duxbury".

Patrick Duxbury,
Environmental Assessment Officer
