Purpose

To present an overview of the Gahcho Kué Project that will assist you in identifying issues to be considered in an environmental assessment of the project.

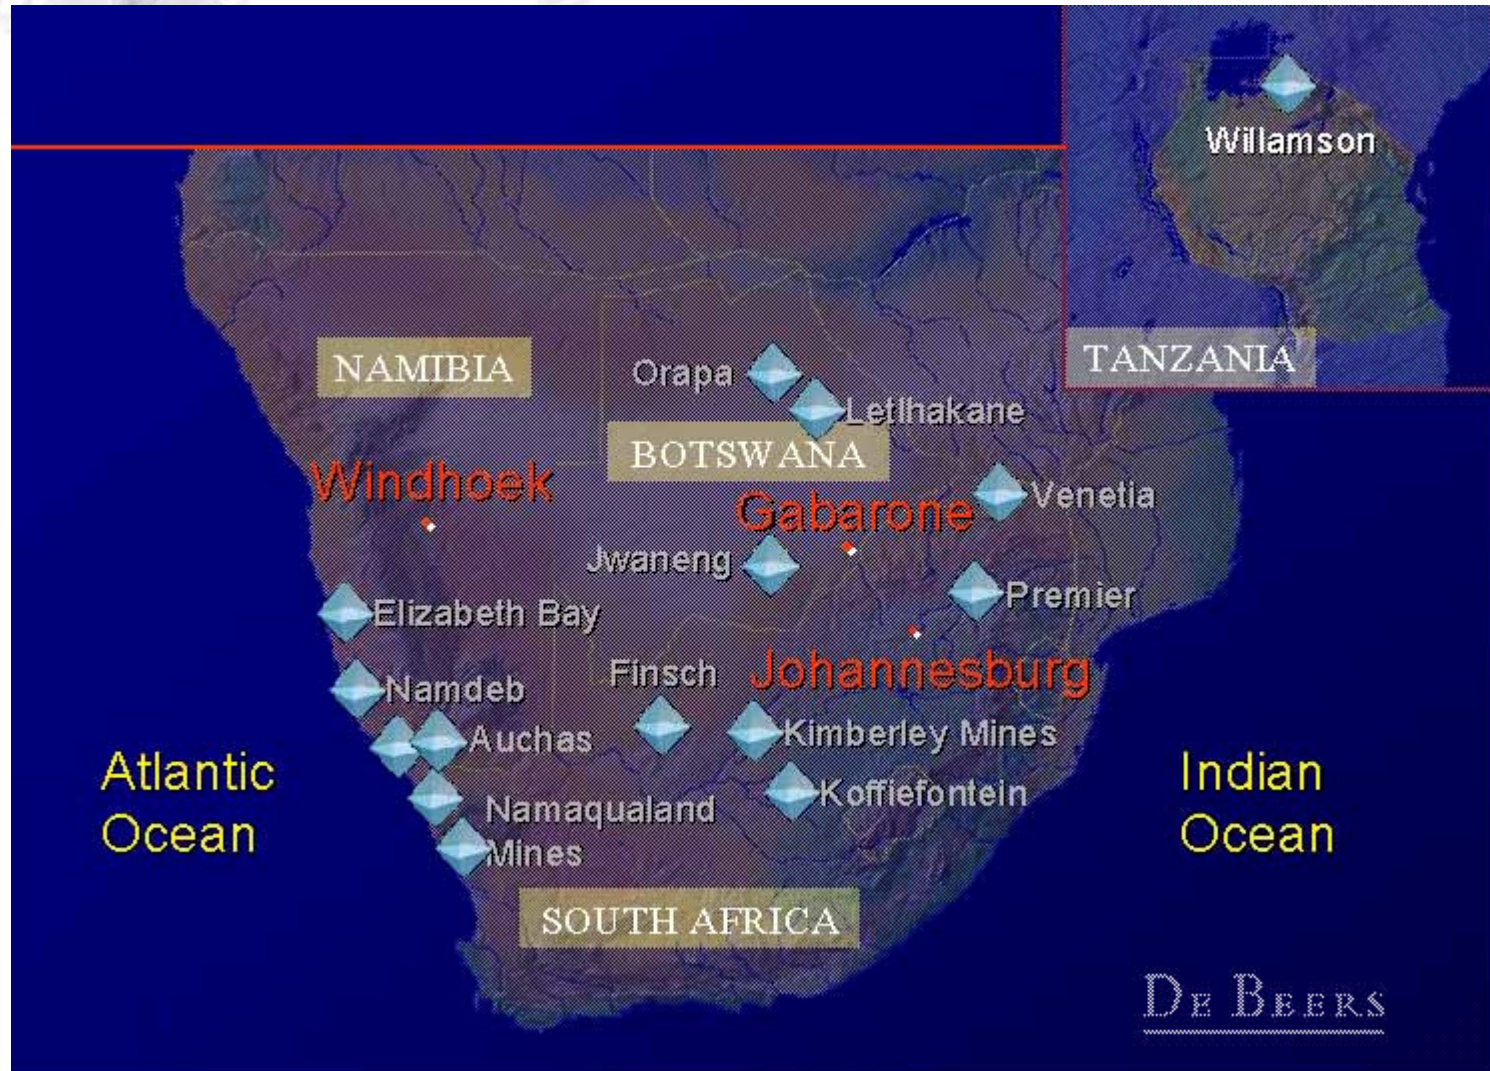

Who is De Beers?

A Company Rooted in Africa

A Company Rooted in Africa

Canadian Projects

1. Snap Lake

Yellowknife

3. Gahcho Kué

2. Victor

Sudbury

Toronto

Most Experienced in Diamond Mining and Recovery

Open Pit

Underground

Sea Bed

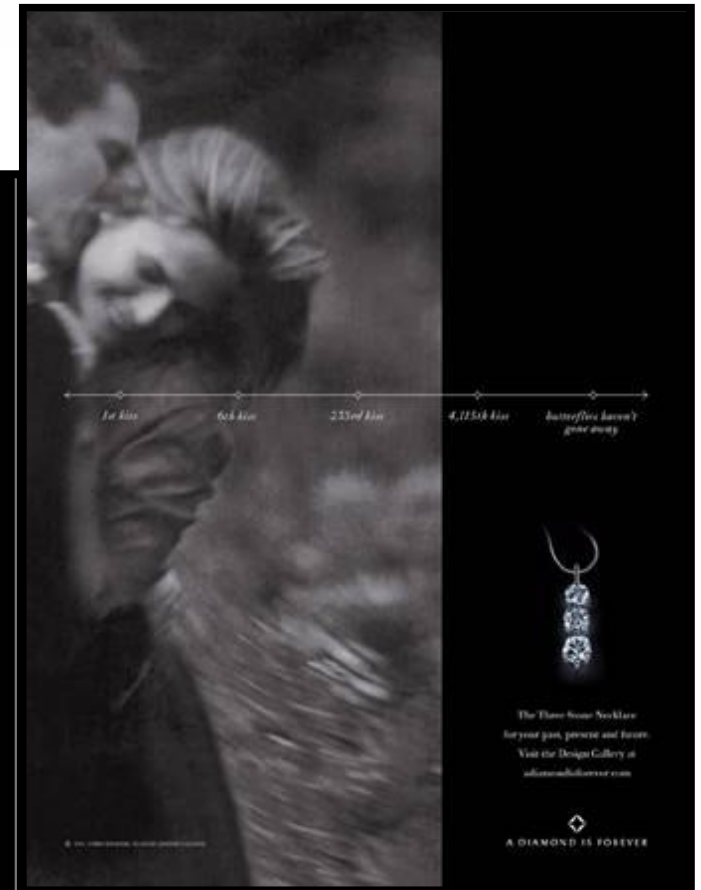

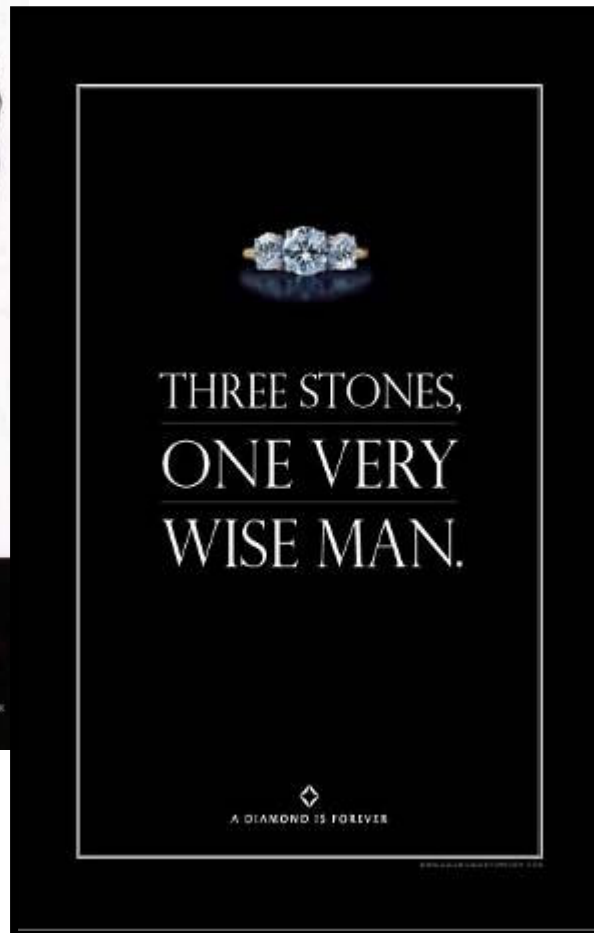

Coastal

Alluvial

Most Experienced in World Diamond Marketing

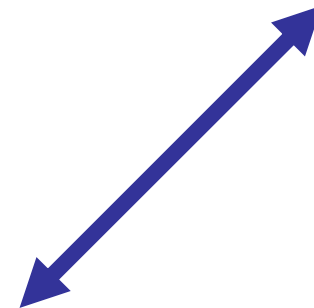

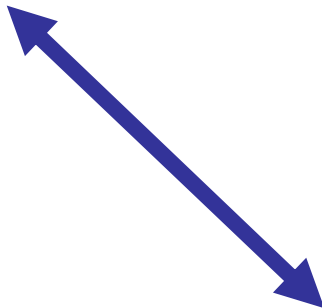

Gaining Northern Experience

The De Beers Approach

- Sustainable development is central to our principles
- Balance economic growth with social and environmental stewardship

Gahcho Kué design.....

- Based upon experience
 - Working in northern environments
 - As Proponent for Snap Lake and Victor projects
- Lessons learned from Snap Lake and other diamond mines have been incorporated into this project
- Synergies and opportunities identified from other projects and ongoing experiences will be incorporated
