EA0607-003 Distribution List

Dear Parties:

Re: EA0607-003 Ur Energy Screech Lake – Information Requests

The Review Board received 53 submissions for information requests. All submissions are posted on the online public registry. The Review Board consolidated the relevant information request submissions into 13 comprehensive information requests. They are attached to this document as well as posted to the online registry. Also posted is a document titled *Information Request Submissions Review and Reasons for Decision*. It contains all submissions as well as a brief description of how the Review Board incorporated them into the information requests issues, or why certain submissions were not issued.

Information requests are being directed at the developer, INAC, the GNWT, WWF, and the Lutsel K'e Dene First Nation. The number and complexity of some of the information requests resulted in an extension of the timeframe presented in the work plan. The public hearing is still scheduled for January 16, 2007. If you have an information request directed at you please provide a response by December 13, 2006. To allow other parties to adequately prepare for the hearing we would appreciate if you could submit responses as early as possible.

Please do not hesitate to contact me if you have any questions regarding the environmental assessment process.

Sincerely

(original signed by)

Martin Haefele
Environmental Assessment Officer
