**Subject:** Transmission line in Lutsel Ke Territory

To whome it May Concern.

I want to say that i support the Taltson expansion....BUT

You should not repeat history where Dene Peoples are subjected to loss of their homeland and disenfranchised from being heard.

It is CLEAR that Lutsel Ke peoples position is made known. The most central Life to the Lutsel ke is their Sacred Site

a Spiritual Connection that goes back to the time of their ancestors, a Land known to them as Thaidene Nene..

I support this position that our Dene Chanie has to be first and foremost in proctecting this Ancient practice, this is

what will take us into the Future.

Thank you Lutsel Ke for making your voice heard..

Francois Paulette.....Smith Landing First Nations
