

## Note to File

---

April 15, 2010

This morning I spoke with Letha MacLachlan regarding the information requests proposed by her clients, cabin and lodge owners Raymond Decorby, Spencer Decorby and Wallace Finlayson.

Ms. MacLachlan stated that the information requests are intended to clarify if and how Deze Energy might reverse its decision about its preferred route and, if the preferred route were to change again, on what basis and when might such a change occur. Ms. MacLachlan indicated that it would be a concern if a route change was made at a later time when there were no further opportunities for public scrutiny of the route selection process or involvement in the environmental assessment.
