Deze Energy Corporation Ltd., Taltson Hydroelectric Expansion Project

Re: Phone call from Wendy Botkin- Thursday February 4, 2010

Wendy Botkin of Parks Canada called my office today to discuss the Taltson Hydroelectric Expansion Project. In response to an earlier question of mine, Wendy indicated that Parks Canada was unaware of anyone in the area that had not already been contacted by the Review Board. Wendy also asked about differences between EIA processes under CEAA and the MVRMA, and the implication of significance determination under each act.
