Taltson Hydro Expansion Project Undertaking - Table of Commitments

During the Public Hearings held on January 14th and 15th, Dézé Energy Corporation (Dézé) committed to providing a table of commitments to the Mackenzie Valley Environmental Impact Review Board. In addition, Dézé has also included comments on specific recommendations put forth by regulatory authorities at the public hearing, some of which were raised for the first time at the hearing, or where Dézé has identified issues or concerns regarding the specific recommendation. The commitments provided in the table are reflective of Dézé's and the parties' efforts during the environmental assessment process to work through issues and concerns, and include the following:

- Commitments made by Dézé in the Developers Assessment Report, in side bar meetings with regulatory authorities and in the draft preliminary environmental monitoring program;
- Recommendations made by parties which Dézé agrees with and has committed to doing;
- Recommendations made by parties for which Dézé is in active discussions with the particular party in preparation for the regulatory process, or for which Dézé plans to discuss alternate methods to address or resolve the recommendation as part of the regulatory process.
- Dézé will continue to work proactively with the parties to address outstanding or underlying issues and will develop action plans to address the issues where possible.

Please contact me at (867) 766-5078 or email DGrabke@nwtec.ca if you have any questions or require any clarification on the information presented in this submission.

Regards,

Dan Grabke,
Managing Director
Dézé Energy Corporation
