

## **Dr. Natasha Affolder**

Associate Professor  
Faculty of Law  
University of British Columbia  
1822 East Mall, Vancouver, B.C. V6T 1Z1  
Ph: 604 822 0734 | Fax: 604 822 8108 | [affolder@law.ubc.ca](mailto:affolder@law.ubc.ca)

### EDUCATION

---

- 2000**            **Doctor of Philosophy (D.Phil.) (Law)**  
University of Oxford  
Doctoral Thesis entitled *Fiction, Fear and Fallacy: Compound Interest in National Law and International Arbitration*
- 1997**            **BCL (Law) (1st Class)**  
University of Oxford  
Rhodes Scholarship
- 1995**            **LLB (with Distinction)**  
University of Alberta
- 1990-1992**      **Undergraduate Studies in History and Economics**  
University of Alberta and Université de Bourgogne, Dijon, France
- 2001**            **Certificate in Real Estate Finance**  
M.I.T. Center for Real Estate, Cambridge, MA

### PROFESSIONAL EXPERIENCE

---

**FACULTY OF LAW, University of British Columbia**, Vancouver, B.C. Associate Professor, July 2010 – present, Assistant Professor, July 2004-July 2010.

Director of the Centre for Law and the Environment (July 2009-December 2010). Teaching in the areas of transnational law, international business law, law and sustainability, natural resources law and land use.

**HARVARD BUSINESS SCHOOL**, Boston, M.A. April 2003-June 2004  
Research Associate. Large Project Negotiation Initiative. Research on large project negotiations (with a focus on the environmental aspects of such negotiations) including controversial natural resource projects, diamond mining projects in the Canadian North, and innovative forms of "rulemaking" through multi-stakeholder initiatives.

**HILL & BARLOW, P.C. and PIPER RUDNICK LLP**, Boston, M.A. 1999- 2003  
Associate. Practice concentrated in real estate development, large project finance, environmental law and land use planning.

**OXFAM INTERNATIONAL**, Oxford and Rome June-Aug 1998  
Legal Consultant to the Rome Conference to Establish an International Criminal Court.  
Legal adviser on gender issues and international criminal law.

**FACULTY OF LAW, University of Alberta**

May-August 1995

Legal Researcher for the Health Law Institute focussing on women's human rights and international health law issues.

**UNITED NATIONS ENVIRONMENT PROGRAMME (UNEP), Nairobi.** Summer 1994

Legal Intern in the International Environmental Law and Institutions Unit. Research on the 1994 Desertification Convention and issues of technical environmental assistance.

---

**SCHOLASTIC SOCIETIES AND COMMUNITY SERVICE**

---

Commission on Environmental Law /World Commission on Protected Areas Specialist Group on Protected Areas Law, member, 2011- present

Canadian Council of International Law, elected Board Member, 2005 – present

Expert Advisory Board Member, Transnational Environmental Law (new Cambridge University Press Journal), 2010-present

Advisory Board Member, McGill Journal of International Sustainable Development Law, 2010-present

Chair, International Advisory Group, Global Environmental Facility (GEF) Transboundary Water Resources Management Project, 2009-2010

Rhodes Scholarship Selection Committee for British Columbia, 2007- 2008

Terry Fox Humanitarian Award, Provincial Interview Committee member, 2006 – 2008

---

**AWARDS, GRANTS, SCHOLARSHIPS,**

---

- UBC Killam Faculty Research Fellowship, 2011
- University of Sydney Faculty of Law, Parsons Visitor, 2011
- Peter Wall Institute Early Career Scholar Award, 2006
- Class of '68 Scholar Award, 2006
- Hampton Research Fund Endowment Award (\$31,166), 2006
- SSHRC International Opportunities Fund Award, 2006
- Selected as one of four Canadian academics to participate in the "Fostering a Scholarly Network" joint project of the Australian New Zealand Society of International Law, the American Society of International Law, the Canadian Council of International Law and the Japan Society of International Law, Wellington, New Zealand, 27-28 June, 2006
- Sir James Lougheed Award of Distinction, Alberta Heritage Scholarship Fund, 1998
- A.C. Irvine Mountaineering Scholarship, 1997
- Rhodes Scholarship, 1995
- A.I. Shumiatcher Memorial Prize in Advocacy, 1995
- Edmonton Consular Ball Scholarship in International Studies, 1994
- Criminal Trial Lawyer's Association Prize in Evidence, 1994
- Morrow Book Prize in Jurisprudence, 1994
- Moot Courts (Silver Medal in Brimacombe Moot Court, National Laskin and Jessup Moot Court Teams) 1993-95
- Alberta Law Review Board of Editors, 1993-95
- Belzberg Entrance Scholarship, Faculty of Law, 1992
- J.R. Longstaffe Leadership Award - University of Alberta, 1990
- Terry Fox Humanitarian Award, 1990
- Prince of Wales Scholarship to Lester B. Pearson College of the Pacific, 1988
- World Champion, International High School Debate Championships, Australia 1988

Fostering a Scholarly Network: International Law and Democratic Theory* (Joint Symposium of the Australian New Zealand Society of International Law, the American Society of International Law, the Canadian Council of International Law and the Japan Society of International Law, Wellington, New Zealand, 27-28 June, 2006).

*Careers in Environmental Law*, Address to the UBC Environmental Law Students Association, 22 February 2006.

*Breaking New Ground: Gender and Mining in Canadian Law*, Centre for Feminist Legal Studies, UBC, 2 February 2006.

*Cachet Not Cash: A Different Sort of World Bank Borrowing*, First Annual Conference on Trade in the Americas (Michigan State University School of Law, East Lansing, Michigan, October 7-8, 2005).

*Contextualizing the Use of International Biodiversity Law in Canadian Courts*, Department of Justice Symposium on the Relationship Between International and Domestic Law (McGill Law School, June 15-16, 2005).

*From Diamond Mines to Greenhouse Gases: International Environmental Governance*, International Scene: UBC Continuing Education, 30 March 2005 (with Karin Mickelson).

*Aboriginal Participation in International Trade Dispute Resolution under NAFTA and the WTO* (American Association of Law Schools Annual Meeting, San Francisco, January 5, 2005).

*Governance Beyond Governments: Environmental Lawmaking in Large Projects* UBC Legal Studies Dinner Seminar (Vancouver Law Courts, Inns of Court, November 30, 2004).

## DUNCAN KENYON'S CV

### PROFILE

My focus is in creating and implementing sustainability related strategies and goals that strengthen the bottom line for organizations and companies by creating an understanding between colleagues, partners, customers and external stakeholders on actionable goals for implementing sustainability strategies.

<b>EMPLOYMENT HISTORY</b>	Hilversum Sustainability Consulting	Principal	May 2010 to present
	Blue Source Canada	Manager, Portfolio Development	Nov 2007 to April 2010
	Self Employed Consultant	Consultant	Oct 2006 to Oct 2007
	Stratos Inc	Consultant	Jan 2006 to Sept 2006
	York Sustainable Enterprise Consultants	Consultant and Managing Partner	Dec 2003 to Dec 2005
	Agriculture and Agri-food Canada	Environmental Analyst	Jan 2003 to Aug 2003
	Industry Canada	Policy Analyst, Strategic Policy Branch	May 2002 to Dec 2002
	Senes Consultants Ltd	Project Manager	Jan 2002 to Apr 2002
	Senes Consultants Ltd	Project Consultant	Sept 2000 to Dec 2001
	Industry Canada	Policy Analyst Intern, Environmental Affairs Branch	Dec 1999 to Aug 2000
<b>EDUCATION</b>	<ul style="list-style-type: none"> <li>Master of Business Administration (graduated 2005) Schulich School of Business, York University, Toronto, Ontario, Canada</li> <li>Bachelor of Science with honours, (graduated 1998) University of Alberta, Edmonton, Alberta, Canada</li> </ul>		

### SELECTED PROJECTS AND EMPLOYMENT EXPERIENCE

PROJECT TITLE	PROJECT DESCRIPTION
<b>Project:</b> Assessment of Carbon Market Opportunity and Mechanism for Carbon Capture and Sequestration (CCS)	Reviewed the client's CCS project to ensure technical compliance with the rules for Protocol development in Alberta including identification and assessment of the implications of policy and regulatory gaps for protocol and project; review of Protocol's approach, data requirements and methodology to ensure that protocol follows best practice standards.

<p>Project</p> <p><b>Client:</b> Large O&amp;G Producer (sub-contract with Pembina Institute)</p>	<p>Duncan's experience with North American protocol development and project implementation enabled him to lead the team assessing carbon policy and markets, and assess the technical GHG policy and GHG accounting elements of this project. The assessment identified several key questions and possible solution to help the client's efforts to derive value from their GHG reductions.</p>
<p><b>Project:</b> Report on Emerging Renewable Energy Certificate Market policy in North America.</p> <p><b>Client:</b> Shell Wind Energy</p>	<p>Report provided client with understanding of North American carbon markets and policy as it pertains to their potential renewable energy projects.</p> <p>Duncan used his experience with North American carbon markets &amp; carbon policy to deliver a report that reviewed carbon market opportunities &amp; emerging policy as it pertains to large scale renewable projects in North America.</p>
<p><b>Project:</b> Third Party Verification Report for Offset Project in Alberta Offset System</p> <p><b>Client:</b> ICF International</p>	<p>GHG verifications were conduct on three Tillage Management Offset Projects in Alberta and as per the Alberta Specified Gas Emitters Regulation were completed to a limited level of assurance and in accordance with the ISO 14064 Part 3 – Greenhouse Gases: Specification with guidance for the validation and verification of greenhouse gas assertions.</p> <p>Duncan was engaged by ICF International to provide third party verification of three offset projects that aggregated offsets created from reductions in greenhouse gas (GHG) emissions through the implementation of reduced till or no-till practices on agricultural lands in Alberta. As verification is a mandatory requirement of Alberta-based offsets, Duncan verified that the emission reduction reported occurred, and that the projects followed the appropriate protocols and measurement procedures.</p>
<p><b>Project:</b> Review of Saskatchewan's Carbon Offset System and Select Protocols</p> <p><b>Client:</b> Ministry of Environment, Saskatchewan (sub-contract with Pembina Institute)</p>	<p>The client sought to have Pembina Institute provide feedback on the strengths, weaknesses and key areas of improvement of the Carbon Offset System's guidance documents and select carbon offset protocols.</p> <p>Duncan used his experience with Canadian and international carbon systems to conduct reviews and direct other team members reviewing the guidance documents and protocols, and delivered recommendations related to protocol development and application, and creating an effective and functional offset market to Ministry of Environment.</p>
<p><b>Project:</b> Market Assessment of Carbon Opportunity for Forest Inventory</p>	<p>Client sought to understand the potential markets, market players and market influences for the carbon part of the forest inventory service.</p> <p>Duncan used his experience with market assessments of environmental</p>

<p>Service</p> <p><b>Client:</b> Alberta Based Forestry Consultancy</p>	<p>technologies, and his knowledge of the carbon market space to create the scope and research plan for the market assessment, and then worked with a team to conduct the necessary research to deliver the final report.</p>
<p><b>Project:</b> Evaluation of Long-Term Funding Options for Contaminated Site</p> <p><b>Client:</b> Alternatives North (sub-contract with Pembina Institute)</p>	<p>The purpose of the study was to identify and evaluate long-term funding options for the long-term care and maintenance for the Giant Mine, Yellowknife, NWT, Canada.</p> <p>Duncan worked on the team that assessed long-term funding processes in other countries, developed an evaluative model to assess long-term funding options as it pertains to the perpetual care requirements at the Giant Mine, and made recommendations on appropriate funding options.</p>
<p><b>Project:</b> Advancing Alberta's BioEconomy Stakeholder Engagement and Sector Strategy</p> <p><b>Client:</b> Alberta Innovates (sub-contract with Pembina Institute)</p>	<p>Engaging key stakeholders in Alberta's bioeconomy resource sector (forestry, agriculture, energy) to develop and execute a collaborative (cross-sector, interdisciplinary) strategy, encourage investment and alignment of resources to grow and expand bioeconomy, and create a community of engaged bioeconomy stakeholders (industrial, government, non-government) working in a collaborative manner.</p> <p>Duncan worked on the team that delivered stakeholder engagements with leading bioeconomy industry, government representatives and international thought-leaders to discuss, develop and report on new approaches for supporting the development of the bioeconomy sector in Alberta.</p>
<p><b>Project:</b> Development of Greenhouse Gas Reduction Projects</p> <p><b>Employer:</b> Blue Source Canada</p>	<p>Duncan's primary responsibilities were to manage the team responsible for identifying and engaging potential Canadian GHG reduction projects; assess GHG reduction project potential in light of GHG policy challenges and opportunities; and prepare appropriate project documentation for bringing offsets to market.</p> <p>Duncan's project sector focus included aggregation projects in agriculture and energy efficiency (industrial and built environment), renewables, and waste diversion projects such as composting, methane capture, etc.</p>
<p><b>Project:</b> Design and System analysis of Department of Indian Residential Schools Resolution Canada's Settlement Process</p>	<p>The Government of Canada was implementing the Indian Residential Schools Settlement Agreement to allow former students of the residential schools to apply for compensation. This project supported the implementation of this program by providing design and system analysis of the organizational structure and processes for the three main programs in the Indian Residential Schools Settlement Agreement.</p>

<b>Client:</b> Indian Residential Schools Resolution Canada	Duncan worked with another consultant to analyze processes developed and recommend new design elements to implement the Indian Residential Schools Settlement Agreement. The work completed was instrumental in creating a more viable process to implement the Indian Residential Schools Settlement Agreement.
<b>Project:</b> Delivery of Environmental Resource Efficiency Management Programs  <b>Client:</b> Global Resource Efficiency Services	<p>Global Resource Efficiency Services has a suite of services for building owner and operators including building occupant awareness, operation and maintenance training, and sustainable energy &amp; environmental plan development.</p> <p>Duncan's role was to perform initial needs assessments of the client's sites and conditions; to assist the client in developing key policies and plans for program implementation; and in providing training to the client to build awareness and participation in conservation efforts.</p>
<b>Project:</b> Development of Management and Accountability Framework for Federal Contaminated Sites Action Plan  <b>Client:</b> Environment Canada	<p>The Government of Canada's Federal Contaminated Sites Action Plan was being enhanced and expanded to better address the liabilities of the Federal Government. This project supported the development of a new management and accountability framework to provide partners with a common understanding of what they should be aiming to achieve, how they would work together to achieve program results (including roles and responsibilities), and how they would measure and report on results.</p> <p>Duncan worked with the project lead to re-develop the management and accountability framework that reflected the new goals and targets of the expanded and enhanced program. Based on discussions with the client and partners, Duncan was responsible for developing with the a new overall strategy and the specific actionable goals for the performance management strategy.</p>
<b>Project:</b> Review of Corporate Responsibility-related Policies, Management Processes and Practices  <b>Client:</b> Syngenta International AG	<p>External changes in the client's industry sector necessitate a review of the clients Corporate Responsibility-related strategies, policies and procedures. To assess where the company was positioned, the project focused on reviewing the external environment including the actions of competitors and leading global companies, and assessing the client's existing policies, procedures and practices to identify building blocks and gaps for developing a new global Corporate Responsibility-related strategy.</p> <p>To evaluate the client's current policies, procedures and practices, Duncan conducted a review and analysis of external trends and risks for the sector and the Corporate Responsibility-related actions of industry peers. This analysis included a review and summary of the industries' trends and risks; and a review of the industry peers' policies and strategies, management procedures, performance monitoring, public reporting, and assurance practices.</p>

<p><b>Project:</b> Assessment of Consultation Processes for Planning and Development of Potential Waste Storage Sites</p> <p><b>Client:</b> Nuclear Waste Management Organization</p>	<p>Effective dialogue and consultation with Canadians continues to be a critical part of the client's work to implement a long-term approach for managing used nuclear fuel produced by Canada's electricity generators. The project performed a large scan and assessment of other dialogue and engagement processes that have been used by other resource related agencies and companies.</p> <p>Duncan was part of the team that performed the scan and assessment of other dialogue and engagement processes that have been used by other resource related agencies and companies. He specifically assessed dialogue processes for traditional knowledge and indigenous peoples, and the low level radioactive waste siting process.</p>
<p><b>Project:</b> Guidance for Alberta Offset Energy Efficiency Protocol</p> <p><b>Client:</b> Alberta Agriculture and Development</p>	<p>Alberta Agriculture and Development sought to provide more specific guidance for several Alberta Offset Protocols related to agricultural activities, so as to encourage uptake of offset projects with these protocols and that deliver real, quantifiable and verifiable GHG reductions.</p> <p>Duncan's primary responsibility was to finalize a guidance document that provided users (interested public, farm operators, project developers, verifiers, etc) with information needed to use and apply Alberta's Offset System Energy Efficiency Protocol. Duncan's experience in using and implementing this Protocol was used to finalize the guidance document.</p>
<p><b>Project:</b> Evaluation of Demand Side Management Practices in Ontario Electricity Market</p> <p><b>Client:</b> Global Resource Efficiency Services</p>	<p>Duncan's role with GRES was to provide market research on the demand side management measures in the Ontario electricity market. The work involved assessing the conservation and demand management plans of local distribution companies, and interviewing representatives of local distribution companies to determine what progress and action had been taken on their demand side management plans.</p>
<p><b>Project:</b> Assessment of Energy Efficiency Practices in Canadian Transportation Sector</p> <p><b>Client:</b> Stakeholder Research Associates and Transport Canada</p>	<p>To better develop federal policy and programs to reduce greenhouse gas emissions, the client sought to expand its understanding of the transportation sectors internal processes and policies, the factors that influence the development of these processes and policies, and an assessment of the processes and policies in place for emissions reduction and energy efficiency.</p> <p>Duncan led a team of York Sustainable Enterprise Consultants working with Stakeholder Research Associates to conduct stakeholder interviews. The interviews had two main sections with the first focused on probing the respondents about general policies and practices currently in place and what factors influenced the creation of these policies. The second section focused on policies for fuel efficiency and greenhouse gas emissions, including the factors</p>

	that influence decisions in terms of current emission reduction and fuel efficiency practices; and barriers to the implementation of emissions reduction and fuel efficiency policies.
<b>Project:</b> Program Review, Process Re-Design of Environmental Assessment Program  <b>Client:</b> Agriculture and Agri-food Canada	<p>To reflect changes in the Department's internal processes due to departmental re-organization and changing strategic goal, and new legal and regulatory requirements, the client needed to assess and re-design its existing environmental assessment program. This project conducted an operational analysis of the client's management system for environmental assessment, and developed an action plan to assure compliance and improved performance for the department's project and strategic environmental assessment requirements by clarifying internal policies, responsibilities and reporting structures.</p> <p>Duncan was responsible for delivering the program review and re-design of the environmental assessment program at the Department. Responsibilities included assessing the current state of the program; creating internal accountability process to manage the environmental assessment process in the department; developing and building Departmental awareness of necessary requirements for Project and Strategic Environmental Assessment (SEA); participation in interdepartmental committees that supported improved environmental assessment performance in the federal government; delivering performance reports to senior management; and creating information tools and training resources that built departmental capacity to perform environmental assessment.</p>
<b>Project:</b> Management of Sustainable Development Reporting Systems  <b>Client:</b> Industry Canada	<p>As part of the Government of Canada's efforts on sustainable development the Department had created two internal reporting systems to manage the implementation of its Sustainable Development Strategy, and another system to manage and monitor the Department's capacity to perform strategic environmental assessment during policy formation.</p> <p>Duncan was responsible for maintaining and managing the two internal reporting systems for the Sustainable Development Strategy (SDS) and Strategic Environmental Assessment. This responsibility included liaising with the Departmental staff responsible for implementing the SDS action items; developing and conducting training sessions to build awareness of the SEA process in the Department; working with the internal information technology resources to re-develop and improve the reporting systems functionality; and delivering performance reports to senior management.</p>

### EMPLOYMENT

#### 2009-present:

##### *Sessional university instructor:*

- Queen's University Law School (2011 and 2012) developing the course and contracted to teach LAW-514 Mining Law: Mining Law, Policy and Communities
- Carleton University (2009, 2010, 2011, 2012) Community Development and Social Change in an International Context (SW3206B).
- Algoma University (2009) developed and taught Mines and Communities (CESD 3906)
- Algoma University (2010) developed and taught (with two Anishinaabe instructors), two community development courses in the First Nation Social Service Administrator Certificate program (CESD3407)

*Consultant:* Participatory research and education on mining issues and community economic planning; organizational development and group facilitation; environmental assessment review. Most recent work includes:

##### 2012:

- Socio-economic Impact analysis of the New Prosperity Mine for the Tsilhqot'in National Government as part of the Environmental Assessment Process
- Socio-economic impact analysis of the impacts of the proposed Raven coal Mine for Coal Watch Comox Valley
- Socio-Economic Impact Analysis of the Cliffs Chromite Project for MiningWatch Canada

##### 2011:

- "Risk Analysis of the Chieftain Metals Tulsequah Chief Mine Proposal", for Rivers Without Borders
- "The Theory and Practice of Perpetual Care of Toxic Sites": literature review, nine case studies and analysis, for Alternatives North In Yellowknife, as part of the Environmental Assessment for the proposed remediation of the Giant Mine
- Socio-Economic Impact Assessment of the proposed Raven Underground Coal Mine on behalf of the Alberni Environmental Coalition and Comox Valley Coal Watch;
- Economic analysis of the proposed chromite development in the Ring of Fire mining property for MiningWatch Canada;

##### 2009-10

- a Review of the Socio-Economic Impact Assessment of the Prosperity Mine and assorted other tasks for MiningWatch Canada;
- a Workshop on Understanding Mining Taxation and Incentives in British Columbia for the Canadian Boreal Initiative;
- an Analysis of Issues Regarding Compensation for Mineral Tenures for the Yukon Conservation Society; and

- co-authoring a brief for the BC First Nations Mining Summit in 2009, and reviewing a number of provincial Mine Environmental Assessment documents for the Centre for Science in Public Participation.

***1999- 2008. National Coordinator, MiningWatch Canada.***

MiningWatch Canada is an alliance of environmental, social justice, Aboriginal, labour and church organizations. The mandate of MiningWatch Canada is to advocate for responsible mining policy and practice in Canada and by Canadian companies operating internationally. I was in charge of the Canadian program, and carried the Executive Director responsibilities for MiningWatch Canada as well as the Canary Research Institute for Mining, Environment and Health (a registered charity). In my work with MiningWatch Canada, I was a key participant in establishing MiningWatch Canada in 1999 and the National Orphaned and Abandoned Mines Initiative (NOAMI) in 2001 and directing their first nine years of operation. Publications I authored while at MiningWatch Canada are listed below.

***1998-9 Urban Issues Program.***

I was retained by the Samuel and Saidye Bronfman Family Foundation to evaluate the Urban Issues Program.

***1991-8 Founding Project Coordinator for Sudbury Better Beginnings Better Futures Association, and the Sudbury Better Beginnings Educational Fund.***

Better Beginnings is a province wide longitudinal research demonstration project to measure the results of early intervention programs on children at risk. Sponsored by the N'Swakamok Native Friendship Centre, the Sudbury project received national and international recognition for its community development work. In 1998, it won the Caring Communities Award from the Trillium Foundation.

***1989-1991 Canadian Contact Person for the Urban-Rural Mission of the World Council of Churches.***

URM is an international network of community organizers. As the contact person for the Canadian component of the program, I set up an organization to enable active rfrom indigenous and non-indigenous community organizers in Canada to communicate with one another and with the international network and to engage in peer training and sharing of strategies.

***1986-1989 National Animator, The Church and the Economic Crisis Project, United Church of Canada.***

In this three year contract position, I was responsible for five components:

- on a national level, identifying community-based organizations working on economic justice issues across Canada and building relationships between their leadership and interested members of the church;
- development regional projects in ten different parts of the country;
- two national conferences on economic justice for people involved in the projects, and the creation of a national economic justice network;
- development of a revolving loan fund within the church; and
- the preparation and publication of a manual for economic justice work

### **1980-1986 Community Legal Worker, Sudbury Community Legal Clinic.**

I was responsible for case work, community development and public legal education.

### **1970-1980.**

During this period I held a number of jobs, including teaching in the Native Community Care and Counseling Program at Cambrian College, bank teller, landscaping, Bell Telephone service representative, as well as unpaid work organizing tenants, women and workplaces. Member of the Women Helping Women Collective (1976-1980) and Wives Supporting the Strike (1978-9). Owner-operator of *The Book Mine* – an independent bookstore in Sudbury from 1973-1975.

### **1965-70. Kingston Community Project.**

Community organizer. Elected to Municipal Council 1968-70 representing St. Lawrence Ward. Founding chair of the Ontario Tenants' Association and the Association for Tenants Action Kingston (ATAK), which resulted in major reforms of the Ontario Landlord and Tenant Act in 1970. (The work we did is well-described in Richard Harris's book [Democracy in Kingston](#).)

### **OTHER EXPERIENCE:**

Former Chair, Community Committee on the Sudbury Soils Study 2006-2011

Board member, Inter Pares, 1996-2008

Member, Local 4600, Canadian Union of Public Employees

I am an experienced adult educator and community development practitioner. I have created conferences, workshops, curricula and learning activities to help adults develop a critical view of their life experience. I have conducted over six hundred such activities with many different groups from indigenous people in communities and organizations, to government and NGO decision-makers. I have also assisted groups in coalition-building, process, planning and adult education.

From 1992-7, I was the founding president of G.E.O.D.E. – *Grassroots Economic Development and Evaluation* - a community economic development corporation in Sudbury, which created an active and effective green credit barter system, set up three Community Shared Agriculture groups, a community transportation system and a Good Food Box.

### **EDUCATION:**

Bachelor of Arts (Honours in English), Carleton University, Ottawa, 1965

Honorary Doctorate in Social Work, Laurentian University, Sudbury, 1995

### **KEY SCHOLARSHIPS AND AWARDS**

Honorary Member - Canadian Research Institute for the Advancement of Women

Honorary Member, Mine Mill Local 598, CAW

### EXPERIENCE

<b>2009 to present</b>	<b>Lead Intervenor on Giant Mine Remediation Plan (part-time) Alternatives North, Yellowknife NT</b>
------------------------	--

Lead intervenor for Alternatives North before the Mackenzie Valley Environmental Impact Review Board. Review of Developer's Assessment Report, preparation of information requests, preparation of technical submissions, questioning at technical sessions, design and presentations at perpetual care and independent oversight workshop and other involvement. Liaison with Yellowknives Dene First Nation, City of Yellowknife and government agencies. Obtained and managed participant and outside funding. Contracted expert reports.

<b>2006 to present</b>	<b>Lead Intervenor on Mackenzie Gas Project (part-time) Alternatives North, Yellowknife NT</b>
------------------------	--

Lead intervenor for Alternatives North before the Joint Review Panel and National Energy Board. Review of Environmental Impact Statement, preparation of information requests, preparation of technical submissions, presentations at hearings, presentation of witnesses, cross-examination of witnesses, preparation of requests for rulings, participation in pre-hearing conferences and other involvement. Liaison with Aboriginal and non-governmental organizations. Obtained outside funding and reported back.

- 2005 to present**      **Executive Director**  
**Independent Environmental Monitoring Agency, Yellowknife NT**
- Service as the manger of the public watchdog on environmental performance of the Ekati diamond mine and government regulators in relation to the mine. Preparation of budgets and work plans, management of financial services, supervision of full-time assistant and contracts, drafting correspondence and briefing materials, planning of workshops and Board meetings, liaison with Aboriginal governments, federal and territorial governments and BHP Billiton staff, and related duties to support Directors.
- 1995-2005**      **Research Director**  
**Canadian Arctic Resources Committee, Yellowknife NT**
- Research and advocacy to promote sustainability for the North. Establishment of Yellowknife office, liaison with Aboriginal peoples/government/industry, interventions in regulatory proceedings for major resource development projects under complex legislative arrangements, and commentary on public policy. Major activities include management of a multi-year program on northern mining issues involving contractors and other staff; coordination of an environmental coalition for the public review of the Ekati diamond mine; preparation of budgets, work plans and funding proposals; board member representing environmental groups in a regional baseline/cumulative effects study; and preparation of briefing materials and correspondence.
- 2001-2002**      **Audit Advisor**  
**Commissioner of the Environment and Sustainable Development**
- Served on an advisory committee for a management audit of abandoned mines in northern Canada. Provided advice on the scope, content and recommendations of the audit.
- 1999 to present**      **Board Member**  
**MiningWatch Canada**
- Assisted with the development of the Canadian national public interest organization for responsible mining. Served as a volunteer Co-Chair of the Board of Directors (2003-5) representing Aboriginal, environmental, labour and other public interests.

- 1998-2000**                      **Director (part-time)**  
**Independent Environmental Monitoring Agency, Yellowknife NT**
- Akaiitcho Treaty 8 nominee to a watchdog agency established under the environmental agreement for the Ekati diamond mine. Participated in the review of monitoring program designs and results in an effort to improve environmental management, monitor government actions and facilitate public understanding of the project and its effects.
- 1992-1995**                      **Northern Science Officer**  
**Canadian Polar Commission, Yellowknife NT**
- Establishment and management of the northern office, research and report production on environmental and Traditional Knowledge issues, organization of meetings, preparation of briefing notes, monitoring of science and technology issues in the North.
- 1990-1992**                      **Executive Assistant**  
**Dene Nation, Yellowknife (Somba K'e) NT (Denendeh)**
- Research and preparation of correspondence for Executive, organization of meetings, preparation of funding proposals and briefing notes, review and analysis of reports.
- 1990**                              **Sessional Instructor**  
**Native Studies Program, Arctic College, Yellowknife NT**
- Preparation of materials and delivery of third-year University of Alberta overview course on Aboriginal issues. Assignment and exam preparation and marking, organization of guest lecturers, and counselling of students.
- 1989-1990**                      **Regional Planning Analyst**  
**Department of Renewable Resources, Government of the Northwest Territories, Yellowknife NT**
- Research on planning issues to prepare government position statements, identification of needs, concerns and strategies for interdepartmental responses. Participation as a team member supporting the activities of the Denendeh Planning Commission.

- 1988-89**                      **Study Coordinator**  
**Ethiopia-Canada Southern Regional Rural Water Project,**  
**Awassa, Ethiopia**
- Management of a baseline socio-economic study of attitudes and practices related to water, health and sanitation to improve water system planning. Responsible for study implementation, supervision of fieldwork and computerized database management.
- 1985-1988**                      **Land Use Planning Coordinator**  
**Dene Nation/Dene-Metis Negotiations Secretariat,**  
**Yellowknife NT**
- Coordination of northern Aboriginal organization activities related to the Northern Land Use Planning Program. Design and implementation of a joint Dene-Metis planning program; hiring, training and supervision of regional fieldworkers; organizing and leading workshops; policy development with Executive; financial and activity report preparation.
- 1985**                              **Research Officer (PC-1, intermediate)**  
**Lands Directorate, Environment Canada, Hull, Québec**
- Geographic information system used to establish an integrated database for Northern Canada. Statistical analysis and modelling on several northern databases.
- 1984**                              **Researcher**  
**Canadian Environmental Law Research Foundation, Toronto**  
**ON**
- Surveyed participants in the Ontario environmental assessment process to assess the distribution of costs and benefits.
- 1984**                              **Environmental Consultant**  
**Canadian Committee on Man and the Biosphere Program**
- Research conducted regarding the suitability of areas in Yukon for designation as World Biosphere Reserves under the United Nations Man and the Biosphere Program.

- 1982**                      **Land Use Analyst**  
**University of Waterloo**
- Archival searches, interviews and fieldwork undertaken in Yukon for land use history and heritage resource planning for Kluane and Macmillan Pass, Yukon. Supervision of two research assistants.
- 1980-1984**                **Teaching Assistant**  
**University of Waterloo, Waterloo ON**
- Seminar presentation and student evaluation for environmental and planning law course. Areas covered included constitutional, common and statute law. Discussion group leader and student evaluation for introductory environmental studies course covering problem-solving techniques.
- 

## **EDUCATION**

- 1984**                      **Master of Arts, Regional Planning and Resource Development**  
**University of Waterloo**
- Thesis: An Evaluation of the Territorial Land Use Regulations as a Land Management Tool in Yukon.
- 1981**                      **Bachelor of Environmental Studies (Honours), Man-  
Environment Studies**  
**University of Waterloo**
- Awards**                      University of Waterloo Scholarships 1977, 1978, 1980, 1981.  
Dean's Honour List 1978, 1981.
- Grants**                      Northern Scientific Training Grants, Department of Indian Affairs  
and Northern Development, 1981, 1982, 1983.
- Research Grant, Canadian Arctic Resources Committee.
- 

## **COMMUNITY SERVICE**

- 2012**                      Queen Elizabeth II Diamond Jubilee Medal for service on  
environmental issues as nominated by Wendy Bisaro, Member of  
the NWT Legislative Assembly (Frame Lake). Citation references  
leadership on Giant Mine.

**1997 to 2006**      Yellowknife City Councillor

Review of budgets, variance reports, proposals and policy documents. Co-chair of multi-stakeholder initiatives including Community Waste Management Strategic Planning Committee and Zoning By-law Review Committee. Participation in several national and territorial conferences and specific initiatives through the Federation of Canadian Municipalities and Northwest Territories Association of Communities. Led City negotiating team towards successful completion of a Memorandum of Understanding with the Yellowknives Dene First Nation and later adoption by City Council.

**2002**      Queen Elizabeth II Golden Jubilee Medal for philatelic research and writing as nominated by the Royal Philatelic Society of Canada.
