Attachments: Letter to Review Board on Redactions to Site Stabilization Plan.pdf

Importance: High

Shannon

While Alan is away, would you kindly post this e-mail and the attached letter to the Giant Mine public registry.

We offer one additional point. While it may be reasonable for AANDC to redact cost figures from the Site Stabilization Plan as submitted, to have entire paragraphs and sentences missing certainly raises concerns for us as to what exactly was cut out. One might expect to see "\$XXXX" but to have entire sections missing does not seem reasonable.

Alan

Please find attached a letter from Alternatives North concerning the unilateral redactions made to the Site Stabilization Plan as submitted by AANDC on August 10, 2012. We believe it is the Board's jurisdiction to determine the confidentiality of any parts of this document, not the Developer's decision.
