Subject: re: Giant Mine Public Registry Filing--Effectiveness of Independent Oversight

Alan

Please find attached two external reviews of the Independent Environmental Monitoring Agency. These two documents are found on the Agency's website as follows:

<http://www.monitoringagency.net/LinkClick.aspx?fileticket=CL5N6RVpZ10%3d&tabid=110>

<http://www.monitoringagency.net/LinkClick.aspx?fileticket=Rz3PbUYO2e4%3d&tabid=110>

During recent discussions on oversight in the context of Giant Mine, some have questioned the effectiveness of such bodies. The attached two reports prove the effectiveness of such a body in a local context.

I have also attached another report that evaluates the effectiveness of 'good neighbour' agreements in the US that are a form of independent oversight. Please file all of these documents on the public registry for the Giant Mine environmental assessment. Thanks.
