EA0809-002

David Harpley  
VP, Environment and Permitting Affairs  
Canadian Zinc Corporation  
Suite 1710, 650 West Georgia Street  
Vancouver, BC  
V6B 4N9

Dear Mr. Harpley:

**Re: EA0809-002: Prairie Creek Mine – compiled commitments table**

The Review Board has received requests from parties for a compilation of commitments that Canadian Zinc Corporation (CZN) has made for the Prairie Creek Mine Project in the course of this environmental assessment.

Commitments from CZN are located in various documents on the public registry including the Developer's Assessment Report, Responses to Information Requests, Technical Meeting transcripts and other meeting documentation.

We discussed this matter on the phone today and I am pleased that you are in agreement with the value of a commitments table to CZN, the Review Board and to other parties. In the near term, a commitments table for the Prairie Creek Mine will be of particular assistance to parties during the preparation of Technical Reports.

Please provide the Review Board with a compiled Commitments Table for the Prairie Creek Mine environmental assessment. The Commitments Table is requested by March 23, 2011.

Thank you for your cooperation.

Sincerely,

Chuck Hubert  
EA Officer
