Yellowknife, NT X1A 2N7

Dear Ms. Spencer:

**Re: Response to Information Requests (IR's)
Tyhee NWT Corp. - Yellowknife Gold Project [2008]
EA0809-003**

Further to your e-mail dated April 3, 2012 and my call this morning and having discussed this matter with our senior management and the Feasibility Study team members associated with the TCA design, water balance and related water quality issues, I have been advised that the information should be available late May 2012 and once reviewed internally, it would be forwarded to the MVEIRB.

With the above in mind and in conjunction with our discussions on March 28, 2012, Tyhee NWT Corp would hope that the MVEIRB would now forward the DAR to other interested parties for their review and comment.

Tyhee NWT Corp appreciates the MVEIRB's support in moving the Yellowknife Gold Project's Environmental Assessment forward and we look forward to further dialogue and receipt of additional IR's in the days ahead.

If there are any questions concerning this matter, please contact me on my cell 780-975-2550. We look forward to working with you to complete this review in a timely manner.

Yours truly,
