Recommendation

Responsible Ministers Decision

Purpose of scoping meetings

1. Find out what your issues are with the Mackenzie Valley Highway
2. Identify issues, both positive and negative
3. Prioritize issues to focus on in our environmental assessment
4. Identify information gaps

How the Board collects information

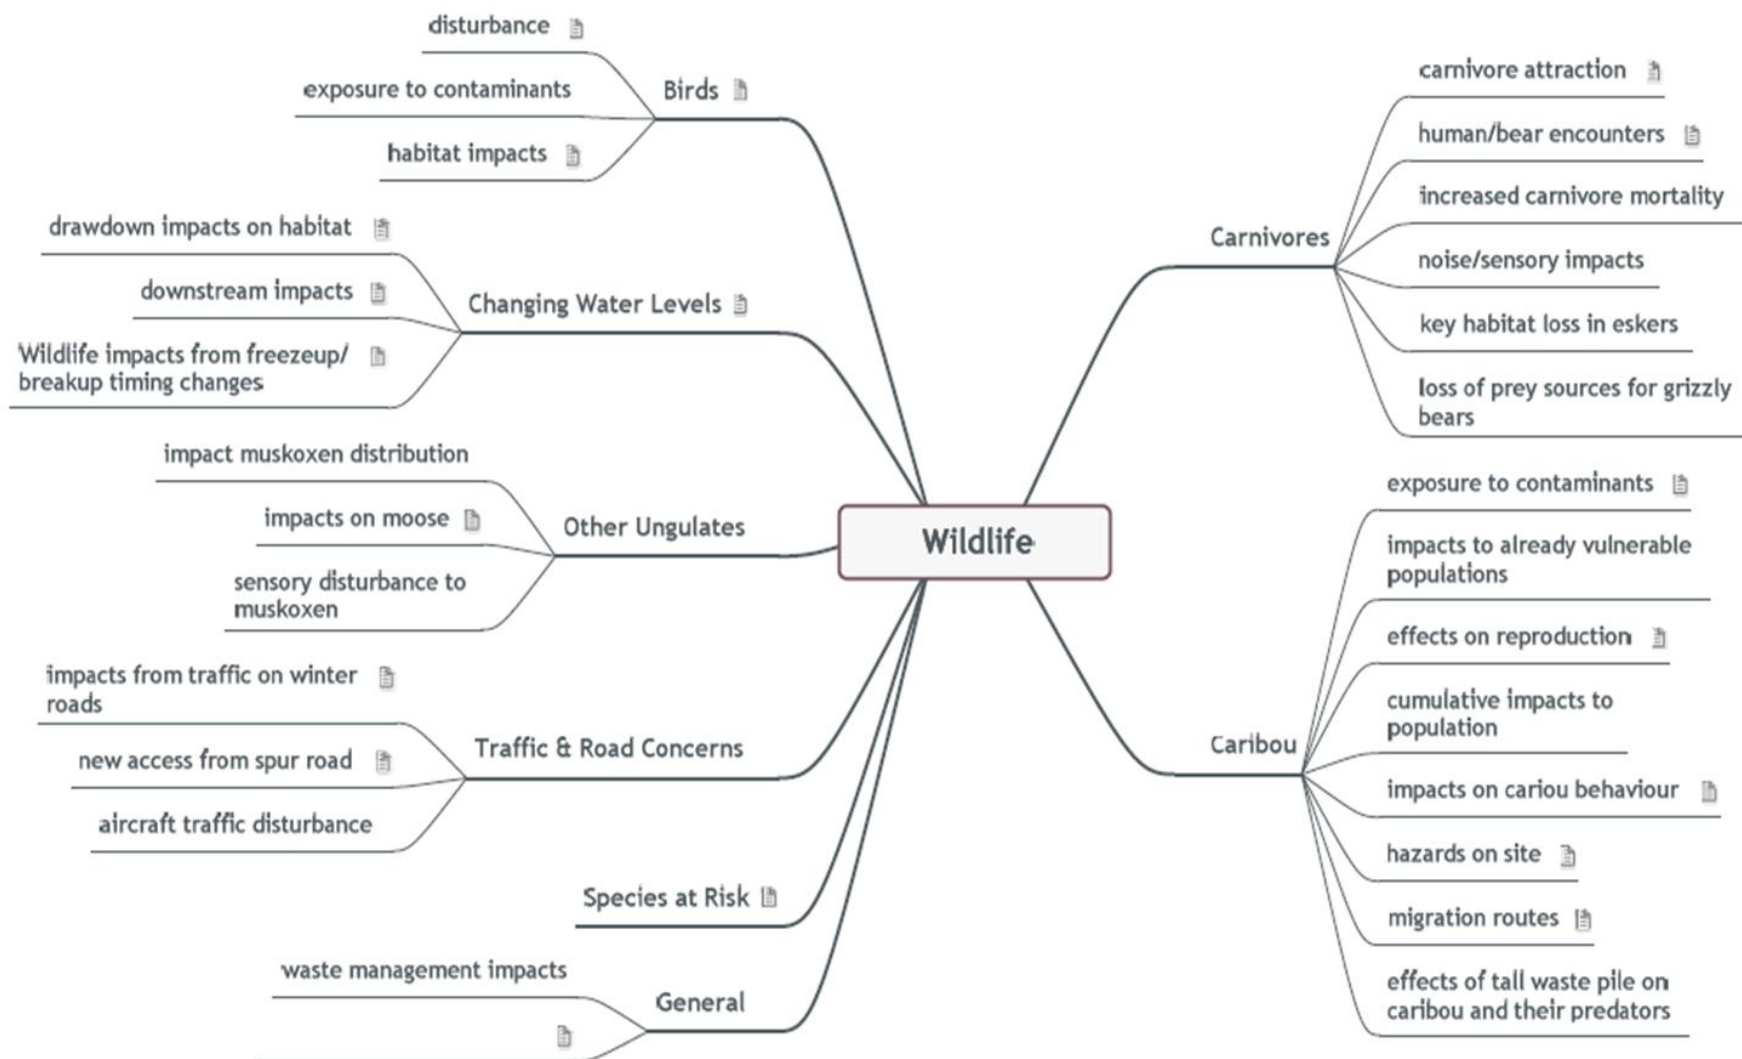

- You talk, we listen
- We fill out cards with your issues
- You can fill out cards
- Review Board staff taking notes today
- Board compiles a summary of information from our notes and your cards
- You can submit letter to the Board
- All information is posted to our public registry

Type of information collected

- Any issues you have related to the Mackenzie Valley Highway project
 - Environmental issues
 - Social issues
 - Economic issues
 - Cultural issues

How you can contribute

- **Please tell us:**
 - **What you want the environmental assessment to look at?**
 - **Which issues matter most to you?**
- Ask the developer questions today about the project
- Tell us about any especially important places or things along the proposed highway route

What happens after scoping?

- We compile information from scoping meetings
- Board prepares Terms of Reference based on scoping (with public draft)
- Developer prepares Developer's Assessment Report based on the Terms of Reference
