Dear Meghan,

**Re: EA1314-01 – Clarification of text in Appendix A of the Report of Environmental Assessment for the Jay Project**

In your email dated August 9, 2016, you advised Review Board staff that in the Report of Environmental Assessment (REA) for the Jay Project there is a discrepancy between the text in the REA itself and the text in Appendix A. The discrepancy concerns Measure 4-4.

Appendix A is intended to be a useful list of the REA measures for quick-reference purposes. Readers should consult the text of the REA itself for a full explanation of each measure. Review Board staff strive to ensure that the text of the appendix is accurate and identical to the text of measures in the REA itself; however, if there is an inconsistency between the text in the appendix and that of the REA, the text of the REA prevails.

Please contact me if you have any questions.

Sincerely,

Brett Wheler  
Senior EA Policy Advisor
