EA1314-02, Snap Lake Water Licence Amendment

Re: Hearing undertakings

The following are the undertakings from the public hearing for the Snap Lake Mine Water Licence Amendment environmental assessment held on June 5 and 6 in Yellowknife.

1. De Beers to provide the Review Board with chapters six and seven of the Aquatic Effect Monitoring Program Design report.
2. De Beers to provide the Review Board with a complete list of commitments made by De Beers during this environmental assessment.
3. De Beers to provide the Review Board with a graph of total dissolved solids in Snap Lake for closure and post closure for the scenario that the water quality objective is set at 684 mg/L.
4. De Beers to provide the Review Board with the report of copepod toxicity testing and the report of the *Daphnia magna* toxicity testing, results three to five.
