**Re: Notification of Nahzà Dehé Dene Band Traditional Knowledge Assessment of the Prairie Creek Mine Operation and portions of the report to be held under confidential cover**

The Review Board has formally accepted a Traditional Knowledge Assessment of the Prairie Creek Mine Operation prepared by the Nahzà Dehé Dene Band (NDDB).

An Addendum Report will be placed on the Public Registry. This addendum report was also placed on the Public Registry during EA0809-002. Confidential portions of the report will be held under confidential cover at the Review Board office throughout this environmental assessment.

The following terms will apply to parties who make a request to view the confidential portions of the report:

- Parties may make a request to the Review Board to view the confidential portions of the report provided a legitimate reason is given (e.g. a reasonable claim that a party will be affected)
- Should viewing of the confidential portions be granted by the Review Board, no reproductions in any form will be permitted
- Viewing will take place at the Review Board office only
- Should a party wish to use specific information from the assessment in its interventions, permission must first be granted by NDDB.

If you have any questions the contact for the Project is:
