Re: Teleconference with Parks Canada

Review Board staff participated in a teleconference call with Parks Canada Agency on Tuesday October 4, 2016 to discuss Parks Canada's September 30 correspondence to the Review Board. Participants on the call were:

Review Board staff:	Mark Cliffe-Phillips
	Brett Wheler
	Ruari Carthew
	Chuck Hubert
Parks Canada Agency:	Allison Stoddart
	Jonathan Tsetso

The purpose of the call was to discuss the Parks Canada letter to the Board dated September 30, 2016 regarding baseline information gaps and a request from Parks Canada on how these could be addressed. The discussion clarified the following:

1. Parks Canada advised that the September 30 letter is not a Request for Ruling as defined under sections 46-50 of the *Rules of Procedure for Environmental Assessment and Environmental Impact Review Proceedings, 2005*.
2. Parks Canada advised that it is a competent Minister under the *Species at Risk Act* and shares the federal responsibility to manage and protect species at risk under this Act.

Review Board staff advised that the Review Board will consider the letter at its next Board meeting on October 27 and respond to Parks Canada's request.

The contact for the Project is A/Manager EA, Chuck Hubert (867) 766-7052; chubert@reviewboard.ca.
