Notice of Proceeding

Prairie Creek All Season Road Project, Canadian Zinc Corporation

Re: Technical report preparation meeting - Postponed

On January 9, 2017, Review Board staff released a [Notice of Proceeding](#) regarding a technical report preparation meeting to be held at 10:30 am (MST) on January 13, 2017. At the request of the developer, **this meeting has been postponed.**

The meeting **will be rescheduled, likely for next week.** The rescheduled meeting will be announced by posting a Notice of Proceeding on the [public registry](#). The Review Board's email notification system has been fixed and all subscribers will receive an email notification of the Notice of Proceeding.

The deadline for the technical reports will be announced at the rescheduled meeting. This deadline is dependent on the date of receipt of CanZinc's risk assessment response document, but will be approximately 30 calendar days following the response document and technical report preparation meeting. **Parties are encouraged to begin preparing their technical reports, following the tips provided in the [January 9 Notice of Proceeding](#).**
