June 6, 2012

Dear Panel Manager:

The Mackenzie Valley Environmental Impact Review Board ("Review Board") has asked for topic suggestions for the next round of Information Requests. The Tłı̨chǫ Government has met to consider these topics and suggests the following areas be considered.

- Caribou studies, and in particular cumulative effects monitoring, as well as Wildlife Effects Monitoring Programs;
- Socio-economic monitoring and predictions, in particular the measurement and adaptive management to changes identified in key valued components in the north, as well as dialogue and review of any monitoring program, agency or agreement that is designed or considered in the area for the purposes of the project;
- Water quality and SSWQO's, in particular any follow up issues on water quality concerns.

Thank you for the opportunity to contribute on this topic.

In Tłı̨chǫ Unity,

Laura Duncan  
Tłı̨chǫ Executive Officer
