# **1 INTRODUCTION**

On October 22, 2012 Transport Canada submitted their technical report to the Mackenzie Valley Environmental Impact Review Board (MVEIRB) for the De Beers Canada Inc. (De Beers) proposed Gahcho Kué Project (Project). This report provides responses to those recommendations outlined in the Transport Canada technical report (Transport Canada 2012).

## **2 TRANSPORT CANADA RECOMMENDATIONS AND RESPONSES**

### **2.1 NAVIGABLE WATERS**

#### **2.1.1 Recommendation 1**

Consult with members of the public and aboriginal people who may have concerns related to works requiring NWPAs approval, if they have not already done so.

#### **2.1.2 Response**

In the second round of information requests, De Beers, in their response to Transport Canada Round 2 Information Requests TC-1 and TC-2, provided a summary of engagement undertaken to date with members of the public and Aboriginal people who may have concerns related to the impacts of navigation (De Beers 2012).

#### **2.1.3 Recommendation 2**

Submit applications for approval under the NWPAs when final design details for project components such as the dykes, water intakes and outfalls are ready. Transport Canada will be able to assess potential impacts to navigation and potential navigational safety hazards after design plans have been finalized and applications have been submitted for approval under the NWPAs. Conditions outlined in NWPAs approvals will aim to mitigate potential effects specific to project works.

#### **2.1.4 Response**

De Beers will meet the requirements of the *Navigable Waters Protection Act* and submit applications to Transport Canada for approval, as required.

#### **2.1.5 Recommendation 3**

Submit an application to Transport Canada if De Beers Canada Inc. wishes to seek a Proclamation of exemption under section 23 of the NWPAs. De Beers Canada Inc. must inform Transport Canada in writing that it wishes to apply for a Proclamation of exemption (see Appendix II).

Submit applications to:

Navigable Waters Protection Program

### **2.1.6 Response**

De Beers will be seeking a Proclamation of exemption under Section 23 of the *Navigable Waters Protection Act*. De Beers will notify Transport Canada in writing that it will apply for a Proclamation of exemption, and include all of the necessary information required to support the Proclamation of exemption.
