---

## Technical Analysis

---

---

---

---

---

---

---

## Public Input

---

---

---

---

---

---

---

## Report of Assessment

---

---

---

---

---

---

---

### Why your participation is important

- Board can make good decisions only if it knows the facts.
- Board needs to hear from the people most affected.
- Board can make valuable recommendations only if it can back them up with evidence.

---

---

---

---

---

---

---

### What we hope to hear from you

**Any concern with the proposed Mackenzie Valley Pipeline.**

**Which of these are most important ones.**

---

---

---

---

---

---

---
