Subject: RE: Update on GNWT IR responses regarding CGV and Sidon EAs

Patrick,

I've asked that GNWT staff at the Prince of Wales Northern Heritage Centre review our past responses to Information Requests concerning the EA of Consolidated Gold Win Ventures' and Sidon International's mineral exploration programs. The response back I received was that the information we provided Nov. 02, 2005 is still up to date and that no new archaeological investigations have been conducted in the CGV or Sidon development areas since the IR was issued.

Thank you for the opportunity to review and update our response but at this time there is no new information.
