Re: Placing previous EA material on current public registries

On February 23, 2007, the Yellowknives Dene First Nation submitted a written request to the Mackenzie Valley Environmental Impact Review Board (Review Board) to have documentation from previous environmental assessments placed on the public registries for Consolidated Gold Win Ventures' (EA0506-005) and Sidon International Resources Corp's (EA0506-006) mineral exploration program environmental assessments.

After examining the request, the Review Board has incorporated the following past EA material into the current public registries for EA0506-005 and EA0605-006. The material will also be placed on the MVEIRB web site to facilitate its access by interested persons and parties.
