Re: Notification of Completion of Preliminary Screening of invasive plant species eradication

To: Distribution List (including Review Board)

In accordance with s. 125 of the *Mackenzie Valley Resource Management Act*, Parks Canada has conducted a preliminary screening of invasive plant species eradication in Thaidene Nene National Park Reserve. Parks Canada has decided **not** to refer the development (i.e., application for a business licence) to environmental assessment.

If Parks Canada does not receive notice of referral to environmental assessment, it will proceed with the issuance of a business licence to Tetra Tech on **July 09, 2021**.

Attached is the preliminary screening of the proposed plant species eradication activities in Thaidene Nene National Park Reserve. I will continue to be available throughout this 10-day pause period to answer any questions or concerns that you may have.

With kind regards,

Danielle Thompson
