Yellowknife, NT X1A 2L9

Sent by email

Dear Mr. Ata,

Amendment of Type A Land Use Permit - Geotechnical Investigation and Right-of-way Clearing at Oscar Creek Bridge, Mackenzie Valley Winter Road, Sahtu Region, NT

The Sahtu Land and Water Board (SLWB or Board) met on December 3, 2019 to consider the request for amendment of Land Use Permit S18X-004, to include the drilling of two additional boreholes at an alternate location on Oscar Creek. The Board approved the updated Preliminary Screening Report and sent the notification for Preliminary Screening Determination to the Mackenzie Valley Environmental Impact Review Board (MVEIRB) for the 10-day pause period. No referral to Environmental Assessment was made by the end of this 10-day pause period. Therefore, please find attached the amended Type A Land Use Permit S18X-004 granted by the SLWB in accordance with the *Mackenzie Valley Resource Management Act* and the *Mackenzie Valley Land Use Regulations*.

A copy of this Permit has been filed on the Public Registry at the SLWB office. Please be advised that this letter, with its attached procedures, inspection reports, and related correspondence is part of the Public Registry and is intended to keep all interested parties informed of the manner in which the Permit requirements are being met.

The full cooperation of GNWT – Department of Infrastructure is anticipated and appreciated for this Permit S18X-004. If you have any questions or concerns please contact Bonnie Bergsma at (867) 496-2778 or email bonnie.bergsma@slwb.com.

Yours Sincerely,

Larry Wallace, Chair
