Mackenzie Valley Environmental Impact Review Board
Attn: Simon Toogood, Senior Environmental Assessment Advisor
Box 938, 200 Scotia Centre
5102 – 50 Avenue
Yellowknife, NT X1A 2N7

Submitted via email

Dear Mr. Toogood,

Re: EA2425-01 – Line 490 Replacement Project, Imperial Oil Resources N.W.T. Limited request to extend the due date for a Summary Impact Statement,

In PR47, the Review Board issued an information request for Imperial to submit a Summary Impact Statement (SIS) by January 15, 2025. Imperial requests that that the submission date for the SIS be changed to January 31, 2025. Imperial is requesting this extension due to the intense focus on other regulatory processes over the past few weeks, particularly the ongoing S13L1-007 Water Licence renewal with the Sahtu Land and Water Board (SLWB), which is crucial for maintaining immediate-term operations.

Please contact Benjamin Fraser (benjamin.fraser@esso.ca) or Sam Bird (sam.bird@exxonmobil.com) if you have any further questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Benjamin Fraser".

Benjamin Fraser
Norman Wells Environment and Regulatory Technical Lead
