Dear Mr. Toogood:

EA1617-01 Tłı̨ch̨o All Season Road Adequacy Statement Response Technical Review Session May 25, 2017

On May 25, 2017, the Government of the Northwest Territories met with Yellowknives Dene First Nation and Wek'èezhì Renewable Resources Board, to assist both parties with understanding the technical aspects of the development and results of the effects assessment presented in the Adequacy Statement Response of the Tłı̨ch̨o All-season Road Project. Additionally, this was a chance to briefly discuss the Project's Environmental Assessment (EA) schedule and provided an opportunity for attendees to ask questions to both the Proponent and the Proponent's technical experts.

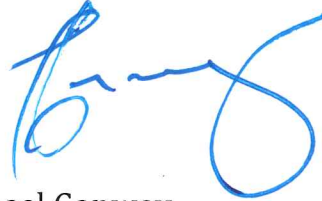

Various themed presentations were delivered such as project history, fisheries, wildlife, and next steps in the EA process. Topics discussed included:

- The road alignment and design;
- Various culvert designs and fish habitat;
- Integration of Traditional Knowledge into the overall project;
- Caribou monitoring, habitat and range;
- Data used for baseline fish projections; and
- Environmental monitors.
