"The CZN IR period closed on February 16, 2001 and all IR's received by the Review Board were accepted and provided to DIAND and/or CZN for response. The Review Board decided to extend the IR response period to a March 2, 2001. The Review Board's work plan was consequently amended. The last day for submitting your technical reports is March 2, 2001. Don't get caught short. Heads up everyone."

Brett Hudson, was kind enough to point out the inherent challenge of preparing a suitable technical report without the benefit of the responses to the Information Requests (yes, I do feel rather humbled...thanks Brent). To that end, I am going to see about getting the work plan legally amended so that the technical report submission date is at least one week after the DIAND and CZN IR response date of March 2, 2001.

Sincerely,  
Luciano Azzolini, EAO
