Subject: RE: Two environmental assessments, Nahanni Butte Area

Thank you for the advance notice. I will attempt to answer your questions.

A. Do I need an appointment in advance to view these documents? *Yes*

B. What are regular office hours? 8:00 to 5:00

C. Is there a fee for viewing or using the files? *no*

COPY

D. Can I photocopy any of the materials in the files? Are there large maps or diagrams in the reports that could also be copied? *Free photocopying, and larger maps could be photo reduced using the photocopier.*

E. Are copying facilities available in your office or would I have to use an outside commercial copy service? *You can use the office photocopier or for larger bulk copying take it to a local print shop. Photocopy here at our cost, outside at your cost.*

F. Can I hire a local Yellowknife consultant to gather information on my behalf? *Yes, absolutely*

G. If copies of the material can be made and sent to me by your staff, do I need a visit to your office at all? *I have not staff. I would photocopy and mail the materials.*

Mr. Taylor, I can well appreciate the effort and money that is spend undertaking exploration work in the Northwest Territories, and do not want to dissuade you, or CFO from undertaking its exploratory and development work. It gets very cold up here, and I value the importance of energy and its many uses, not the least, heating my home. If there is anything I can do to alleviate any concerns please feel free to call me or Gordon Stewart. Gordon Stewart is handling the Explor Data Ltd. Seismic Project and starting the Canadian Zinc Mine Project. I will copy him on this message. I am certain he could provide what you require.

Sincerely,

L. Azzolini
