Shirley, I agree, there are no projects on hold and the status is exactly as you have described it.

Sincerely,
 L. Azzolini

To ensure we are talking about the same projects and to confirm that none of Paramount's projects are on "hold":

Bovie Lakes - this project is in EA

Liard East - this drilling project is in EA

Cameron Hills - a drilling land use permit is in EA, Paramount has an active land use permit at Cameron Hills and we may conduct some wellbore work in the near future, in addition, Paramount has an application in front of MVLWB for a seismic project

Arrowhead - a drilling land use permit in in EA, in addition, Paramount has an application in front of MVLWB for a seismic project

I hope this clarifies our project status

>>> "Louie Azzolini" <lazzolini@mveirb.nt.ca> 01/17/01 01:28PM >>>

Pete, you are correct, the projects you identified are in EA. Two EAs to be exact. One for the Cameron Hills and one for the remaining three projects.

Hope that helps. We do have mapping in our office that can help answer your question, and we are getting GIS maps that combine Paramount's and various other Environment Canada and satellite analysis together. I will let all the experts on the EA know when we get its.

Sincerely,
 L. Azzolini

Subject: projects in EA on Hold

please confirm that the following projects are on hold by Paramount

Bovie lakes
Liard East
Cameron Hills
Arrowhead

I know that Cameron Hills is, just so I have all the facts straight
thanks

Pete
