Ranjitt, I will not treat CZN's request as an IR to government unless explicitly requested to by CZN. I trust that the expeditious timely and cooperative completion of the EA is your desired interest, and that you would not want to necessitate formalizing, and hence, prolonging tasks that would seem quite a matter of course.

Sincerely,
L. Azzolini

Louie:

We are asking the Review Board to endorse the Ir's from Canadian Zinc, as it has done in previous cases and as it appears to be the Board's process.

Ranjit

Louie:

As you know, we have received an e-mail from Canadian Zinc, (cc to you) requesting DIAND to supply the water quality-related information, in two Irs (GNWT #3 and DIAND #7) to the MVEIRB. In my discussion with you yesterday, you mentioned that we can exercise our discretion to provide or not to provide the information. You also mentioned that the EA process will be slowed down if the information is not provided by DIAND and the Review Board has to make such a request, after August 17/01, the date the IR's are due.

We are today (August 9/01) requesting that the Review Board authorizes the

Irs in question, as it has done in previous cases, and as the information is to be submitted directly to the MVEIRB, at the request of Canadian Zinc. This will also clearly establish that the Review Board has accepted and authorized the Irs.

Ranjit
