**Subject:** Phase Two Drilling Program CZN - Conformity and Technical Review

Please find attached CZN's Environmental Assessment Report and supporting information. Please review the materials for the following:

1. Conformity
2. Technical acceptability, quality of the impact analysis to identify unresolved issues pertinent to the Terms of Reference.
3. Preparation and submission of Information Requests pertinent to the Terms of Reference and the submitted Environmental Assessment report.

I am proposing a meeting of responsible and Federal minister (RM and FM) experts on the morning of the 15th involved to undertake a conformity review. In the afternoon, without my attendance (legal reasons), the FM and RM experts would decide what if any Information Requests were needed. The purpose of the meeting is to meet the June 18 Information Request milestone date. I will prepare meeting notes of the conformity discussions for the public registry and distribution.

**Friday June 15, 2001 Draft Morning Agenda**

- 09:00 Introductions, purpose and objectives of meeting, confirmation of agenda, conflicts of interest
- 09:30 Open discussion of environmental assessment conformity with the Review Board's Terms of Reference.
