**Subject:** RE: REMINDER - \*\* LAST DAY FOR CONFORMITY SUBMISSIONS \*\* APRIL9,2002\*\*

Louie:

DIAND agrees with the approach and comments Environment Canada has stated regarding Conformity. Our focus will be on the technical review of material and if we identify deficiencies in information we will submit an information request (IR). We would also like to mention that a response to an IR does not automatically mean that the IR response is adequate. Only once our technical experts have reviewed an IR response will we be able to determine if it has indeed met the original information request.

Thanks Louie,

Louie,

Given that "this conformity check determines whether or not De Beers has responded to what was asked for in the EA Terms of Reference" and that it is "not a technical assessment of the material provided" Environment Canada will defer the responsibility for the conformity check to the MVEIRB.

Sincerely,
