Subject: re: Question on the Targeted Use of Snap Lake Revenues

Fraser

Thanks for your patience. Here is a written question in response to the issue I raised at the MVEIRB De Beers Technical Session on Socio-Economic Issues and our subsequent telephone conversation. I will submit the same question to GNWT for the purposes of clarity. A written response would certainly be appreciated by February 2003.

What is the position of the federal government on the feasibility and desirability of the targeted use of federal revenues from Snap Lake towards economic diversification and sustainability for the NWT?

By copy of this e-mail, I am requesting Mr. Azzolini to place this e-mail on the Snap Lake EA public registry.
