**Subject:** re: Question on the Targeted Use of Snap Lake Revenues

Jason

For the purposes of clarity, here is a written question on the issue of Snap Lake revenues that I raised at the MVEIRB De Beers Technical Session on Socio-Economic Issues. I have submitted the same question to the federal government. I thank you for your commitment to provide a written response as stated at the Session. A written response would certainly be appreciated by February 2003.

What is the position of the territorial government on the feasibility and desirability of the targeted use of territorial revenues from Snap Lake towards economic diversification and sustainability for the NWT?

By copy of this e-mail, I am requesting Mr. Azzolini to place this e-mail on the Snap Lake EA public registry.
