Subject: Re: De Beers Updated Technical Schedule

Louie:

I have passed this on to the team to get their response. Here is some of my out loud thinking that I am throwing to you:

What will be covered under Scope and Methodologies on the first day? I am assuming Scope of development, project description. What is meant by 'methodologies'?

Is biodiversity being covered under wildlife and wildlife habitat or is it not being considered at the technical sessions (due to lack of mention in ToR and not being identified as an issue in the conformity analysis)?

Will traditional land use be covered under socio-economic and cultural? (NSMA and others seemed to have some issues around traditional land use, I think?)

Will air quality/pollution be covered anywhere? I see the GNWT just submitted a couple of issues on this. I am quite surprised that there aren't more questions from other EA parties surrounding air quality (such a big thing in Alberta).

Mr. John Ramsey was the first to identify the missing geo-technical topic for the upcoming Technical Sessions. A special MVEIRB award is being sent via airmail to John today. Honestly. Please consider the proposed dates below for the upcoming technical sessions to be held at the "Smoke House Cafe in Ndilo" I appreciate not everyone's schedule can be accommodated but we will try to get the best overall fit.

1. Nov 25, introduction, procedures, De Beers Presentation, Scope and methodology issues
2. Nov 26, Geo-technical<?xml:namespace prefix = o ns = "urn:schemas-microsoft-com:office:office" />
3. Nov 27, Geo-technical
4. Nov 28, Water quality/quantity
5. Nov 29, Water quality/quantity
6. Dec 2, Aquatic habitat and aquatic organisms

7. Dec 3, Wildlife and wildlife habitat
8. Dec 4, Wildlife and wildlife habitat and A&R
9. Dec 5, Socio-economic and cultural
10. Dec 6, Socio-economic-cultural and cumulative
