1.0 INTRODUCTION

Indian and Northern Affairs Canada (INAC) has generated an Aboriginal business directory. The directory is derived from INAC's Aboriginal procurement list. One of the general requirements for inclusion into the directory is Aboriginal ownership. The directory is organized by community and identifies businesses based out of the respective community. The directory includes eight communities: Lutsel K'e, Rae/Edzo, Wekweti, Yellowknife, Fort Providence, Fort Resolution, Fort Smith, and Hay River. With the exception of Yellowknife and Hay River, all communities included are First Nations.

Although the Aboriginal business directory prepared in February 2001 is a valuable resource, it is not comprehensive. A more comprehensive and up-to-date listing of Aboriginal businesses will be developed for the Snap Lake Diamond Project, which will include the INAC directory base, as well as other primary and employment catchment communities.
