Dear Sir,

**Re: Paramount Transmission Ltd. Cameron Hills Pipeline and Fuel Gas Pipeline, Order XO-P097-02-2002; Condition 8: Revegetation Monitoring Plan**

Paramount Transmission Ltd. (PTL) hereby submits an application for an amendment to the revegetation specifications as outlined in the environmental impact assessment, subsequent information request responses, and the Revegetation Monitoring Plan for the above project.

PTL proposes to increase the seeding rate to a range of 20 to 30 kg/ha with a fertilizer mixture of approximately 20-20-20 (N-P-K) on areas where erosion is an issue or could potentially be an issue. This will aid in establishing vegetation to mitigate erosion.

An expeditious approval of this amendment would be appreciated to aid in mitigating some current erosion issues in this project. If there are questions regarding the above matter then please contact the undersigned at (403) 290-3696.

Yours truly,

**PARAMOUNT TRANSMISSION LTD.**

Tom Hong, Project Manager
