Dear Sir;

Re: Paramount Resources Ltd. Land Use Permit Application MV2000P0055,
Pipeline and Gathering System, Cameron Hills

Paramount Resources Ltd. (Paramount) hereby submits an application for an amendment to the revegetation specifications as outlined in the environmental impact assessment, subsequent information request responses, and the Revegetation Monitoring Plan for the above project.

Paramount proposes to increase the seeding rate to a range of 20 to 30 kg/ha with a fertilizer mixture of approximately 20-20-20 (N-P-K) on areas where erosion is an issue or could potentially be an issue. This will aid in establishing vegetation to mitigate erosion.

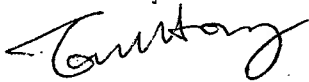

An expeditious approval of this amendment would be appreciated to aid in mitigating some current erosion issues in this project.

If you require any further information, then please contact the undersigned by phone, (403) 290-3693 or fax, (403) 266-6032 or e-mail address, tom.hong@paramountres.com.

300

Yours truly;

PARAMOUNT RESOURCES LTD.

Tom Hong, P. Eng.
Project Manager
