A. RE: Submission of Environmental Assessment Report for the WesternGeco Mackenzie and Liard Rivers Seismic Survey

Dear Alan,

As requested, please find enclosed 11 hard copies of the Environmental Assessment (EA) Report for our above noted Project. Note that the EA is in two binders. The body of the EA is in a thin binder. Appendices are in a fatter binder. The distribution numbers for hard copies are listed on the front of the EA. We are sending hard copies out to contacts as provided on your participants list. Some participants have requested only CDs, some more than one hard copy. Where people have not responded to the request to identify a preference, then one hard copy will be provided. All CDs will be sent out early next week.

Please get back to me if you have any questions concerning our submission or the distribution process you asked us to help with.

Yours Sincerely,

Keith Rosindell
WesternGeco Marine Div
