Dear Chief Kotchea;

I would like to take this opportunity to inform you of the changes regarding participation in the Mill Operator Trainee program.

We have offered twelve positions in the training program to members of your community, however, for various reasons, only two remain.

Referring to my letter of February 6, 2002, requesting a Skills Inventory list, I have had no response. This information would be of great assistance to me.

With respect to Frank Kotchea, the information you have was based on my internal field notes and a verbal discussion. Subsequently, I have been advised otherwise and if you have any additional information please let me know.

Best Regards,

Michelle Thompson
