**Re: Calgary Meeting
March 5, 2003
Minutes**

Gentlemen,

Gordon and I spoke earlier today about meeting with the staff of the Mackenzie Valley Environmental Impact Review Board ("MVEIRB") about the Environmental Assessment for Northrock Resources' Summit Creek Access and Wellsite Permit and Licence Application. Subsequent to my conversation with Gordon, I spoke with Martin Haefele of the MVEIRB about arranging a meeting in Yellowknife with the MVEIRB staff, Northrock and representatives of the Tulita District Land Corp, Fort Norman Metis Land Corp. and the Tulita Renewable Resources Council. He indicated that could be helpful, but made it very clear that the staff could only speak of the Environmental Assessment process. He indicated that a draft "Terms of Reference" may be available by that time.

The Environmental Assessment process is very lengthy, and we will need to work together if we are to be able to have permits approved in time for Northrock to drill this well this coming winter. I would hope at this meeting that the MVEIRB staff will be able to explain the Environmental Assessment process to all of us, and discuss ways in which it can be streamlined.

The MVEIRB staff would be able to meet on Tuesday, April 8 in the morning. If you were able to join us, it would be most appreciated. Northrock would pay your travel expenses. Please call me at (403) 213-7441 to let me know if you are able to meet.

Yours truly,

NORTHROCK RESOURCES LTD.

Matt Law
Project Consultant
