Mackenzie Valley Environmental Impact Review Board

June 13, 2003

To Distribution List

Dear Parties:

Re Northrock Summit Creek – Open Information Requests

The MVEIRB has accepted Northrock's Developer's Assessment Report as being in conformity with the Terms of Reference for this EA. The MVEIRB has granted status to the following parties:

Party	Status
Sahtu Land and Water Board	Directly Affected Party
Northrock Resources Ltd	Directly Affected Party
GNWT-RWED	Directly Affected Party
Sahtu Renewable Resources Board	Directly Affected Party
Louis Azzolini	Member of the Public
DIAND	Directly Affected Party
Sahtu Land Use Planning Board	Directly Affected Party
Canadian Parks and Wilderness Society	Intervener
Environment Canada	Directly Affected Party
Fort Norman Metis Land Corporation	Directly Affected Party
National Energy Board	Directly Affected Party

The MVEIRB is now providing directly affected parties and interveners with the opportunity to identify any Information Requests they deem necessary to perform an analysis of the Developer's Assessment Report or necessary for the MVEIRB to come to an appropriate decision. For those parties who are not familiar with the EA process and the purpose of Information Requests, a format for Information Requests with some explanations is attached. Please do not hesitate to contact the undersigned if you have any questions concerning Information Requests, or the EA process in general.

Please submit your requests at your earliest convenience but no later than June 25, 2003. Preferably use the format in the attachment.

Sincerely

A handwritten signature in blue ink, appearing to read "Martin Haefele".

Martin Haefele

Environmental Assessment Officer

Standard Format for MVEIRB Information Requests

Note: The purpose of Information Requests is to provide the MVEIRB with the information it needs to decide whether the proposed development is likely to have a significant adverse environmental effect. They are a tool for the Board to obtain additional information, clarification on issues, and to answer questions that arise during the proceedings of an Environmental Assessment.

Information requests can originate from and be directed at all parties to the assessment. A party that acts as an advisor to the Board, e.g., can request information that is necessary for that party's technical analysis of the Developer's Assessment Report. **All Information Requests have to be approved by the Board.**

IR Number: *Number is assigned by MVEIRB*

Source: *Organization from which the request originates (your organization)*

To: *Who the request is directed at (i.e. organization(s) expected to answer or provide information), e.g. the developer or a government department.*

DAR Section: *The section(s) of the Developer's Assessment Report the Information Request refers to. If referring to specific statements, quote the DAR statements.*

Terms of Reference Section: *The section(s) of the Terms of Reference for the EA that the Information Request refers to. If appropriate quote the relevant section.*

Note: The MVEIRB will generally not accept any Information Requests outside the scope of the Assessment. Information Requests should refer to specific terms of reference.

Preamble

Provide background information and a rationale for your request. The preamble should identify any shortcomings of the DAR and how the requested information will be relevant. For example: "The DAR describes various mitigation measures to minimize impacts on wildlife, but does not specify which measure is aimed at which species. To determine the effectiveness of proposed mitigation measures the species they are aimed at should be known".

Request

The question the organization the request is directed to is to answer. For example: "Please identify which mitigation measures are aimed at minimizing impacts on moose". A question may consist of several parts.
