Dear Mr. Law

**Re: Notice of Referral to Environmental Assessment – Northrock Resources Ltd.  
Summit Creek B-44 Exploratory Well (S02A-004/S02L1-003)**

On March 21, 2003 the Sahtu Land and Water Board referred Northrock's Land Use Permit and Water Licence applications for the Summit Creek B-44 well to Environmental Assessment, according to section 125 of the Mackenzie Valley Resource Management Act.

The Mackenzie Valley Environmental Impact Review Board will determine the scope of the project and the assessment, and will provide you with terms of reference and a work plan. Your applications to the Sahtu Land and Water Board have been reviewed and were found to be sufficient as development description for the purposes of creating the terms of reference. At this point you are not required to submit any additional information.

All pertinent information will be placed on the Review Board's public registry. The terms of reference and work plan will be developed in consultation with the SLWB and other stakeholders. The Board's Guidelines for Environmental Impact Assessment, as well as information on previous assessments, can be found on at [www.mveirb.nt.ca](http://www.mveirb.nt.ca). Also, please do not hesitate to contact me any time at (867) 766-7053 or [mhaefe@veirb.nt.ca](mailto:mhaefe@veirb.nt.ca), if you wish to discuss the process involved in an Environmental Assessment.

Sincerely

A handwritten signature in black ink, appearing to read "Martin Haefe".

Martin Haefe  
Environmental Assessment Officer
