Elaine,

I have forwarded your request regarding timing of operations to Consolidated Goldwin Ventures for clarification.

On the topic of drill holes, the land use application indicates drilling in three areas with no more than 5 drill holes. Subsequent program details indicate no more than 2 drill holes per area. I have asked Consolidated Goldwin to re-confirm this. I will forward the response as soon as it is available.

Also, the background material you requested regarding the Yellowknives Dene First Nations concerns and responses will be faxed shortly. Please call if you have further questions.

Sincerely,
Sherry Sian

Sherry,

Further to my phone message, we would like some clarification on the proposed projects particularly Consolidated Goldwin. In each of the draft terms of reference, the principle developments occur over ice. We received a letter today from Consolidated Goldwin that implies that it can conduct its program this summer - for the Hearn Strait area. Can you please clarify when the company plans to carry out its work at each of the areas? Also, can you please confirm that the company plans to a total of 6 drill holes. The maps we were provided show only three targets and we assumed only one drill hole per target. Thanks,

Elaine Blais

Elaine,

Thank you for confirming. You have been added to the distribution list.

I am in the process of issuing the draft Terms of Reference and Workplan for North American General Resources Corporation today. Please see the attachment.

Give me a call if you have any questions.

Regards,
Sherry

Sherry,

We received a notice of referral May 12th but no fax back form. DFO would like to be on the distribution list and preference for info will be either fax or Email.

I will be the contact person.

Thanks,

Elaine Blais
