Subject: Re: EA Status

Ref #129.

Thanks for the update.

I am finalizing the "EAR" Exploration assessment Report with input from EBA and will filing it as complete within the next couple of weeks for the CGW program. I have also started to prepare the New Shoshoni EAR and will have that filed seperately during much the same time frame.

I will still be pushing all the time factors to nth degree - we already close to 2 weeks behind my negative time frame I expounded in our June Meeting!

Regards

Laurie Stephenson
